The Bonds are subject to redemption prior to maturity on the terms and conditions set forth in the Preliminary Official Statement (hereinafter defined).

Upon initial issuance, the Bonds will be issued in book-entry-only form and registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Bonds and be responsible for maintaining a book-entry system for recording the interests of its participants or the transfers of interests among its participants. Individual purchases may be made in the principal amount of \$5,000 or any integral multiple thereof through book entries made on the books and records of DTC and its participants. Individual purchasers of the Bonds will not receive certificates representing their beneficial ownership interest in the Bonds, but each book-entry bondholder will receive a credit

balance on the books of its nominee. For additional information, see "THE BONDS -- Book-Entry-Only System" in the preliminary official statement described below ("Preliminary Official Statement").

The Township has prepared a Preliminary Official Statement in connection with the sale of the Bonds which it has deemed "final" as of its date for purposes of paragraph (b)(1) of Rule 15c2-12, as amended ("Rule 15c2-12") promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, except for certain omissions permitted thereunder. Within seven (7) business days of the sale of the Bonds, and in sufficient time to accompany any confirmation that requests payment from a customer, the Township will deliver a sufficient number of copies of the final official statement ("Official Statement") to the purchaser in order for the same to comply with Paragraph (b)(4) of Rule 15c2-12.

The Preliminary Official Statement is available for viewing in electronic format through the internet facilities of Bowman & Company LLP. Bowman & Company's web address is www.govdebt.net ("Site"). In addition, broker dealers registered with the National Association of Securities Dealers ("NASD") and dealer banks with DTC clearing arrangements may either: (i) print out a copy of the Preliminary Official Statement by their own means; or (ii) at any time prior to May 18, 2017, elect to receive a printed copy of the Preliminary Official Statement in the mail by requesting the same on the Bowman & Company web site or by calling the Township's Bond Counsel, Parker McCay P.A. ("Bond Counsel"), 9000 Midlantic Drive, Suite 300, Mount Laurel, New Jersey 08054. Calls should be directed to Alexis B. Batten, Esquire at (856) 985-4067. In order to view, print a copy or request a copy of the Preliminary Official Statement from the Bowman & Company web site, please visit www.govdebt.net. Bidders may log-in to access electronic viewing and delivery. Once logged-in to the Site, bidders must follow the applicable instructions and prompts to access the Preliminary Official Statement. All bidders must review the Preliminary Official Statement and certify that they have done so prior to participating in the bidding.

The Preliminary Official Statement also contains information relating to, *inter alia*, the Township's \$12,632,000 Bond Anticipation Notes of 2017, Series A ("BAN"). Bidders shall *not* be required to submit a proposal for the purchase of the BAN when submitting a proposal for the purchase of the Bonds. The submission of a bid for the purchase of the Bonds does not and shall not constitute a proposal for the purchase of the BAN. The specifications for and form of proposal for the purchase of the BAN are set forth in a separate Notice of Sale prepared and delivered under separate cover.

In accordance with the requirements of Rule 15c2-12, the Township will, prior to the issuance of the Bonds, enter into an agreement substantially in the form set forth in Appendix "D" to the Preliminary Official Statement ("Disclosure Agreement").

BID SPECIFICATIONS

Each **ELECTRONIC PROPOSAL** for the Bonds must be submitted to PARITY in accordance with this notice, but no bid will be received after the time for receiving bids specified above. To the extent any instructions or directions set forth in PARITY conflict with this Notice of Sale, the terms of this Notice of Sale shall control. For further information about PARITY, including any fee charged, potential bidders may contact BiDCOMP®/PARITY®, 1359 Broadway,

Second Floor, New York, New York 10018, (212) 849-5021. The Township may, but is not obligated to, acknowledge its acceptance in writing of any bid submitted electronically via PARITY. In the event that a bid for the Bonds is submitted via PARITY, the bidder further agrees that:

1. If a bid submitted electronically by PARITY is accepted by the Township, the terms of this Notice of Sale and the information that is electronically transmitted through PARITY shall form a contract, and the successful bidder shall be bound by the terms of such contract.

2. PARITY is not an agent of the Township, and the Township shall have no liability whatsoever based on any bidder's use of PARITY, including but not limited to any failure by PARITY to correctly or timely transmit information provided by the Township or information provided by the bidder.

3. The Township may choose to discontinue use of electronic bidding via PARITY by issuing a notification to such effect via TM3 News Services, or by other available means, no later than 3:00 p.m. (Eastern Time) on the last business date prior to the bid date set forth above.

4. Once the bids are communicated electronically via PARITY to the Township as described above, each bid will constitute an official "Proposal for Bonds" and shall be deemed to be an irrevocable offer to purchase the Bonds on the terms provided in this Notice of Sale. For purposes of submitting electronic bids, the time as maintained on PARITY shall constitute the official time.

5. Each bidder shall be solely responsible to make necessary arrangements to access PARITY for purposes of submitting its bid in a timely manner and in compliance with the requirements of this Notice of Sale. Neither the Township nor i-Deal shall have any duty or obligation to provide or assure to any bidder, and neither the Township nor i-Deal shall be responsible for the proper operation of, or have any liability for any delays or interruptions of, or any damages caused by PARITY. The Township is using PARITY as a communication mechanism, and not as the Township's agent, to conduct the electronic bidding for the Bonds. By using PARITY, each bidder agrees to hold the Township harmless for any harm or damages caused to such bidder in connection with its use of PARITY for bidding on the Bonds.

Each proposal must specify in a multiple of 1/8th or 1/20th of 1%, a single rate of interest which each maturity of the Bonds are to bear. No rate of interest named for any maturity may be less than the rate of interest named for a prior maturity, and the difference between the highest and the lowest rates of interest named in the proposal shall not exceed three percent (3%). No proposal shall be considered that offers to pay an amount less than the principal amount of Bonds offered for sale or under which the total loan is made at an interest cost higher than the lowest net interest cost to the Township under any legally acceptable proposal.

The Bonds will be sold to the bidder who, after having complied with the terms of this Notice of Sale, offers the lowest net interest cost for the Bonds. The net interest cost shall be computed in each instance by adding to the total amount of Bonds bid for, the total interest cost to maturity in accordance with such bid. **Proposals may not include any premium.** If two (2)

or more bidders specify the same lowest net interest cost, then to one of such bidders selected by the undersigned by lot. The purchaser must pay an amount equal to the interest on the Bonds accrued to the date of delivery. The Township reserves the right to reject all bids and any bid not complying with the terms of this Notice of Sale.

Each bidder is required to make a good faith deposit, in the amount of **\$219,660** ("Deposit"), in the form of a cash wire or a certified, cashier's or treasurer's check payable to the order of the "Township of Harrison". If a cash wire is used, the wire must be received by the Township prior to **11:00 A.M.** (Eastern Time), on **THURSDAY, MAY 18, 2017**. Bidders submitting cash wires must (i) notify the Township of their intent to use such cash wire prior to **10:00 A.M.** (Eastern Time), on **THURSDAY, MAY 18, 2017** (ii) provide proof of electronic transfer of such cash wire prior to **11:00 A.M.** (Eastern Time), on **THURSDAY, MAY 18, 2017**; and (iii) also enclose return wiring instructions for use by the Township. If a check is used, the check must be a certified or cashier's or treasurer's check drawn upon a bank or trust company and must be delivered to the Township, c/o Yvonne Bullock, Chief Financial Officer, Township of Harrison, 114 Bridgeton Pike, Mullica Hill, New Jersey 08062 by no later than **11:00 A.M.** (Eastern Time), on **THURSDAY, MAY 18, 2017**. Bidders submitting good faith checks should also enclose a return envelope for use by the Township. Each bidder accepts responsibility for delivering such cash wire or check on time and the Township is not responsible for any cash wire or check that is not received on time. When the successful bidder has been ascertained, all such Deposits shall be returned by the Township to the persons making the same within a reasonable period of time, except the cash wire or check of the successful bidder which shall be applied as partial payment for the Bonds or to secure the Township from any loss resulting from the failure of the successful bidder to comply with the terms of its bid. Award of the Bonds to the successful bidder or rejection of all bids is expected to be made promptly after receipt of the bids. The successful bidder may not withdraw its proposal until after **5:30 P.M.** (Eastern Time), on the bid date and then only if such award has not been made prior to the withdrawal.

AT THE TIME OF DELIVERY OF THE BONDS, PAYMENT FOR THE BONDS SHALL BE IN IMMEDIATELY AVAILABLE FUNDS.

The successful bidder may refuse to accept the Bonds, if prior to their delivery, any income tax law of the United States of America shall provide that the interest thereon is taxable, or shall be taxable at a future date, for federal income tax purposes and, in such case, the deposit made by such bidder will be returned and the successful bidder will be relieved of its contractual obligations arising from the acceptance of its proposal.

RATING

The Township has applied for a rating on the Bonds from S&P Global Ratings, acting through Standard & Poor's Financial Services LLC. The Township expects to have the rating prior to the sale of the Bonds. Notice of the rating on the Bonds will be communicated via MUNIFACTS.

OPTIONAL PURCHASE OF MUNICIPAL BOND INSURANCE

Information concerning the Township has been furnished to certain companies for the purpose of qualifying the Bonds for municipal bond insurance. Any purchase of said insurance will be at the sole option and expense of the bidder and increased costs of issuance including, without limitation, any additional rating agency fees, resulting by reason of such insurance will be paid by such bidder. Notice of qualification of the Bonds for municipal bond insurance will be communicated via MUNIFACTS. If the Bonds qualify for municipal bond insurance, each bidder shall be required to specify whether municipal bond insurance will be purchased.

POSTPONEMENT

The Township reserves the right to postpone, from time to time, the date and time established for receipt of Bids. **ANY SUCH POSTPONEMENT WILL BE PUBLISHED ON THOMSON MUNICIPAL NEWSWIRE, BEFORE 11:00 A.M. ON THE DAY BEFORE THE SALE.** If any date fixed for receipt of bids and the sale of the Bonds is postponed, an alternative sale date will be announced via Thomson Municipal Newswire at least forty-eight hours prior to such alternative sale date. On any such alternative sale date, any bidder may submit a bid for the purchase of the Bonds in conformity in all respects with the provisions of the Notice of Sale, except for the date of sale and except for the changes announced on Thomson Municipal Newswire at the time the sale date and time are announced.

DELIVERY OF THE BONDS

It is anticipated that delivery of the Bonds will occur on or about Thursday, June 1, 2017.

It is anticipated that CUSIP identification numbers will be printed on the Bonds, but neither the failure to print such numbers on any Bond nor any error with respect thereto shall constitute cause for a failure or a refusal by the purchaser thereof to accept delivery of and to pay for the Bonds in accordance with the terms hereof. All expenses in relation to the printing of CUSIP numbers on the Bonds shall be paid for by the Township; provided, however, that the CUSIP Service Bureau charge for the assignment of the numbers shall be the responsibility of and shall be paid for by the purchaser.

Simultaneously with the delivery of the Bonds, the purchaser shall furnish to the Township a certificate, in form acceptable to Bond Counsel, stating that: (i) it purchased the Bonds as an investment for its own account and not with a view toward distribution or resale in the capacity of a bond house, broker, or intermediary; or (ii) pursuant to a bona fide public offering of all of the Bonds, it sold a substantial amount (ten percent (10%), or more, in par amount) of each maturity of the Bonds to the public (excluding bond houses, brokers or similar persons or organizations acting in the capacity of underwriters or wholesalers) at or below the initial public offering prices set forth in such certificate. The purchaser shall also furnish a certificate, in form acceptable to Bond Counsel, setting forth the yield on the Bonds and issue price thereof, calculated in accordance with the requirements of the Internal Revenue Code of 1986, as amended.

The obligation of the purchaser to purchase and pay for the Bonds is conditioned on the delivery, at the time of settlement of the Bonds, of the following: (i) approving legal opinion of Parker McCay P.A., Mount Laurel, New Jersey, Bond Counsel, a form of which can be found in Appendix "C" to the Preliminary Official Statement; (ii) the delivery of certificates in form and tenor satisfactory to Bond Counsel evidencing the proper execution and delivery of the Bonds and receipt of payment therefor, including a statement of the Township, dated as of the date of such delivery, to the effect that there is no litigation pending or, to the knowledge of the signer or signers thereof, threatened relating to the issuance, sale and delivery of the Bonds; and (iii) an executed copy of the Disclosure Agreement.

COMPLIANCE WITH P.L. 2005, c.271, s.3

The purchaser is advised of its responsibility to file an annual disclosure statement on political contributions with the New Jersey Election Law Enforcement Commission ("ELEC") pursuant to *N.J.S.A. 19:44A-20.13* (P.L. 2005, c.271, s.3) if the purchaser enters into agreements or contracts, such as its agreement to purchase the Bonds, with a public entity, such as the Township and receives compensation or fees in excess of \$50,000 in the aggregate from public entities, such as the Township, in a calendar year. It is the purchaser's responsibility to determine if filing is necessary. Failure to do so can result in the imposition of financial penalties by ELEC. Additional information about this requirement is available from ELEC at 888-313-3532 or at www.elec.state.nj.us.

This Preliminary Official Statement and the information contained herein are subject to change, completion or amendment without notice. Under no circumstances shall this Preliminary Official Statement constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, qualification or exemption under the securities laws of any such jurisdiction.

PRELIMINARY OFFICIAL STATEMENT DATED MAY 11, 2017

In the opinion of Parker McCay P.A., Mount Laurel, New Jersey, Bond Counsel, assuming continuing compliance by the Township with certain tax covenants described herein, under existing law, interest on the Bonds and Notes (as hereinafter defined) is not included for federal income tax purposes in the gross income of the owners thereof pursuant to Section 103 of the Internal Revenue Code of 1986, as amended ("Code"), and is not a specific item of tax preference under Section 57 of the Code for purposes of computing the alternative minimum tax imposed on individuals and corporations pursuant to Section 55 of the Code. Interest on the Bonds and Notes is included in the calculation of the alternative minimum tax as a result of the inclusion of interest on the Bonds and Notes in "adjusted current earnings". Interest on the Bonds and Notes may be subject to the branch profits tax imposed on certain foreign corporations and to the tax on "excess net passive income" imposed on S corporations. Interest on the Bonds and Notes and any gain from the sale thereof are not includable in the gross income of owners thereof under the New Jersey Gross Income Tax Act, as presently executed and construed. See "TAX MATTERS" herein.

Redemption Provisions

Bonds

The Bonds maturing prior to June 1, 2028 are not subject to redemption prior to their stated maturity dates. The Bonds maturing on and after June 1, 2028 are subject to redemption prior to their stated maturity dates at the option of the Township, upon notice as set forth below, as a whole or in part (and, if in part, such maturities as the Township shall determine and within any such maturity by lot) on any date on or after June 1, 2027 at a redemption price equal to one hundred percent (100%) of the principal amount of the Bonds to be redeemed, plus accrued interest to the redemption date.

Notice of redemption shall be given by mailing first class mail in a sealed envelope with postage pre-paid not less than thirty (30) days nor more than sixty (60) days prior to the redemption date to the owner of every Bond of which all or a portion is to be redeemed at his or her last known address, if any, appearing on the registration books of the Township. So long as the Bonds are issued in book-entry-only form, all notices of redemption will be sent only to DTC and not be sent to the Beneficial Owners of the Bonds. Failure of an owner of the Bonds to receive such notice or of DTC to advise any Participant or any failure of a Participant to notify any Beneficial Owner of the Bonds shall not affect the validity of any proceedings for the redemption of Bonds. Such notice shall specify: (i) the series and maturity of the Bonds to be redeemed; (ii) the redemption date and the place or places where amounts that are due and payable upon such redemption will be payable; (iii) if less than all of the Bonds are to be redeemed, the letters and numbers or other distinguishing marks of the Bonds to be redeemed; (iv) in the case of a Bond to be redeemed in part only, the portion of the principal amount thereof to be redeemed; (v) that on the redemption date there shall become due and payable with respect to each Bond or portion thereof to be redeemed the redemption price; and (vi) that from and after the redemption date interest on such Bonds or portion thereof to be redeemed shall cease to accrue and be payable.

Notes

The Notes are **not** subject to redemption prior to their stated maturity dates.

Book-Entry-Only System¹

The description which follows of the procedures and record keeping with respect to beneficial ownership interests in the Bonds and Notes, payment of principal and interest, and other payments on the Bonds and Notes to DTC Participants or Beneficial Owners (as each such term is hereinafter defined), confirmation and transfer of beneficial ownership interests in the Bonds and Notes and other related transactions by and between DTC, DTC Participants and Beneficial Owners, is based on certain information furnished by DTC to the Township. Accordingly, the Township does not make any representations as to the completeness or accuracy of such information.

The DTC will act as securities depository for the Bonds and the Notes. The Bonds and the Notes will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond and Note certificate will be issued for each maturity of the Bonds and Notes, each in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Bonds and Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds and Notes on DTC's records. The ownership interest of each actual purchaser of each Bond and Note ("Beneficial Owner") is in

¹ Source: The Depository Trust Company

turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds and Notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds and Notes, except in the event that use of the book-entry system for the Bonds and Notes is discontinued.

To facilitate subsequent transfers, all the Bonds and Notes deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of the Bonds and Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds and Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds and Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices, if any, shall be sent to DTC. If less than all of the bonds or notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds and Notes unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Township or its hereafter designated paying agent, if any, as soon as possible after the applicable Record Date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds and Notes are credited on the applicable Record Date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds and distributions on the Bonds and Notes, if any, will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Township or its hereafter designated paying agent, if any, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Township or its hereafter designated paying agent, if any, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds and distributions to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Township or its hereafter designated paying agent, if any, disbursement of such payments to Direct Participants will be the responsibility of

DTC and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds and Notes at any time by giving reasonable notice to the Township or its hereafter designated paying agent, if any. Under such circumstances, in the event that a successor depository is not obtained, the Bond and Notes certificates are required to be printed and delivered.

The Township may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond and Note certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Township believes to be reliable, but neither the Township nor the Underwriters (as hereinafter defined) take any responsibility for the accuracy thereof.

NEITHER THE TOWNSHIP NOR ITS HEREAFTER DESIGNATED PAYING AGENT, IF ANY, WILL HAVE THE RESPONSIBILITY OR OBLIGATION TO THE DIRECT PARTICIPANTS OR THE PERSONS FOR WHOM THEY ACT AS NOMINEES WITH RESPECT TO THE PAYMENTS TO OR PROVIDING OF NOTICE FOR THE DIRECT PARTICIPANTS, OR THE INDIRECT PARTICIPANTS OR THE BENEFICIAL OWNERS.

SO LONG AS CEDE & CO. IS THE REGISTERED OWNER OF THE BONDS AND THE NOTES, AS NOMINEE OF DTC, REFERENCES HEREIN TO THE BONDHOLDERS/NOTEHOLDERS OR REGISTERED OWNERS OF THE BONDS AND NOTES (OTHER THAN UNDER THE HEADING "TAX MATTERS") SHALL MEAN CEDE & CO. AND SHALL NOT MEAN THE BENEFICIAL OWNERS OF THE BONDS AND THE NOTES.

Discontinuance of Book-Entry-Only System

In the event that the book-entry-only system is discontinued and the Beneficial Owners become registered owners of the Bonds and Notes, the following provisions would apply: (i) the Bonds and Notes may be exchanged for an equal principal amount of Bonds and Notes in other authorized denominations and of the same maturity, upon surrender thereof at the offices of the Township or its hereafter designated paying agent, if any; (ii) the transfer of the Bonds and Notes may be registered on the books maintained by the Township or its hereafter designated paying agent, if any, for such purposes only upon the surrender thereof to the Township or its hereafter designated paying agent, if any, together with the duly executed assignment in form satisfactory to the Township or its hereafter designated paying agent for the Bonds or Notes, if any; and (iii) for every exchange or registration of transfer of the Bonds and Notes, the Township or its hereafter designated paying agent, if any, may make a charge sufficient to reimburse for any tax or other governmental charge required to be paid with respect to such exchange or registration of transfer for any tax or other governmental charge required to be paid with respect to such exchange or registration of transfer of the Bonds and Notes. In such event, interest on the Bonds and Notes will be payable by check or draft, mailed on each Interest Payment Date, to the registered owners thereof as of the close of business on the Record Date, whether or not a business day.

SECURITY FOR THE BONDS AND THE NOTES

The full faith and credit of the Township are irrevocably pledged for the payment of the principal of and interest on the Bonds and the Notes. The Bonds are general obligations of the Township payable as to principal and interest from *ad valorem* taxes that shall be levied upon all taxable real property within the Township without limitation as to rate or amount. The Notes are general obligations of the Township and are issued in anticipation of the issuance of bonds and, if not paid from the proceeds of such bonds or other funds, are payable ultimately from *ad valorem* taxes that shall be levied upon all taxable real property within the Township without limitation as to rate or amount.

The Township may pledge only its own credit and taxing power in respect of the Bonds and the Notes, and has no power to pledge the credit or taxing power of the State or any other political subdivision thereof, nor shall the Bonds and the Notes be deemed to be obligations of said State or any other political subdivision thereof, nor shall said State or any other political subdivision thereof be liable for the payment of principal of or interest on the Bonds and the Notes.

CERTAIN PROVISIONS OF THE LAWS OF THE STATE OF NEW JERSEY AND THE UNITED STATES RELATING TO GENERAL OBLIGATION DEBT

Local Bond Law

General - The Local Bond Law governs the issuance of bonds and notes by counties and municipalities for the financing of capital improvements. Among its provisions are the following: (i) the power and obligation to pay any and all bonds and notes issued pursuant to the Local Bond Law shall be unlimited; (ii) the county or municipality shall levy *ad valorem* taxes upon all taxable property therein for the payment of the principal of and interest on such bonds and notes without limitation as to rate or amount; (iii) generally, a down payment that is not less than five percent (5%) of the amount of debt obligations authorized must be appropriated in addition to the amount of debt obligations authorized; (iv) all non-special-assessment bonds

shall mature within the period of usefulness or average period of usefulness of the improvements being financed; and (v) after issuance, all bonds and notes shall be conclusively presumed to be fully authorized and issued by all of the laws of the State, and all persons shall be estopped from questioning their sale, execution or delivery.

Debt Limits - The authorized bonded indebtedness of the Township is limited by statute, subject to the exceptions noted below, to an amount equal to three and one-half percent (3.50%) of its equalized valuation basis. The equalized valuation basis of the Township is set by statute as the average for the last three years of the equalized value of all taxable real property and improvements as annually determined by the New Jersey State Board of Taxation. Certain categories of debt are permitted by statute to be deducted for purposes of computing the statutory debt limit.

Bonds, notes and long-term loans are included in the computation of debt for the statutory debt limit. The Township, including the issuance of the Bonds and the Notes, will not exceed its three and one-half percent (3.50%) debt limit.

Exceptions to Debt Limits – Extensions of Credit - The Township may exceed its debt limit with the approval of the Local Finance Board, a State regulatory agency, and as permitted by other statutory exceptions. If all or any part of a proposed debt authorization would exceed its debt limit, the Township may apply to the Local Finance Board for an extension of credit. If the Local Finance Board determines that a proposed debt authorization would not materially impair the credit of the Township or substantially reduce the ability of the Township to meet its obligations or to provide essential public improvements and services, or make certain other statutory determinations, approval may be granted.

In addition, debt in excess of the statutory limit may be issued by the Township to fund certain notes, to provide for purposes in an amount not exceeding two-thirds (2/3) of the amount budgeted in such fiscal year for the retirement of outstanding obligations (exclusive of utility and assessment obligations).

Short-Term Financing – When approved by bond ordinance, the Township may issue bond anticipation notes to temporarily finance capital improvements. Such notes may not be issued in an aggregate amount exceeding that specified by the ordinance. The Notes may not be issued for periods of more than one year, renewable with the final maturity occurring no later than the first day of the fifth month following the close of the tenth fiscal year next following the date of the original note. After the third year, the amount of the Notes that may be renewed annually must be decreased by the minimum amount required for the first year's principal payment for the bond issue in anticipation of which the Notes are issued.

Bonds – Bonds may be issued pursuant to the Local Bond Law for the purpose of paying, funding outstanding bonds, including emergency appropriations, the actuarial liabilities of a non-state administered public employee pension system and amounts owing to others for taxes levied in the local unit, or any renewals or extensions thereof, and for paying the cost of issuance of bonds.

Local Fiscal Affairs Law

The Local Fiscal Affairs Law, Chapter 5 of Title 40A of the New Jersey State Statutes, as amended and supplemented ("Local Fiscal Affairs Law"), governs audits, auditors, public moneys and financial statements of local governmental units, including the Township.

Each local unit is required to cause an annual audit of its books, accounts and financial transactions to be made and completed within six months after the close of its fiscal year by either a Registered Municipal Accountant or, by agreement with the Director ("Director") of the Division of Local Government Services ("Division") in the Department of Community Affairs, by qualified employees of the Division.

An independent examination of the Township's books, accounts and financial transactions must be performed annually by a Registered Municipal Accountant who is licensed by the State Board of Public Accountants. The audit, conforming to the Division's "Requirements of Audit", includes recommendations for improvement of the local unit's financial procedures and must be filed with the report, together with all recommendations made. A Summary of Audit, together with recommendations, must be published in a local newspaper within 30 days of its submission. The entire annual audit report for the year ended December 31, 2015 is on file with the Township Clerk and is available for review during business hours.

The Local Fiscal Affairs Law also requires that the Chief Financial Officer of the local unit file annually with the Director a verified statement of the financial condition of the local unit as of the close of the fiscal year to be made not later than February 10 for December 31 fiscal year end local units and August 10 for June 30 fiscal year end local units. The Annual Compiled Financial Statement for the year ended December 31, 2016 is on file with the Township Clerk and is available for review during business hours.

Local Budget Law

The Local Budget Law, Chapter 4 of Title 40A of the State, as amended and supplemented ("Local Budget Law"), governs the budgeting and appropriation of funds by local governmental units.

The Local Budget Law requires local governmental units to adopt a "cash basis" budget in such form that there will be sufficient cash collected to meet all debt service requirements, necessary operations of the local governmental units for the fiscal year and any mandatory payments required to be met during the fiscal year.

No budget shall be adopted unless the Director shall have previously certified their approval thereof.

Each local governmental unit must include in its budget an appropriation for the payment of debt service. The Director is required to examine such appropriation to determine whether it is properly set forth, in addition to determining whether all estimates of revenue contained in the budget are reasonable, accurate and correctly stated.

A statute passed in 1976, as amended (*N.J.S.A. 40A:4-45.1 et seq.*), commonly known as the "Cap Law", imposed limitations on increases in municipal appropriations subject to various exceptions. On August 20, 1990, the Governor signed into law P.L. 1990, c. 89, which revised and made permanent the "Cap Law". Since its inception, the "Cap Law" has been amended and modified several times, most recently on July 13, 2010. While the revised "Cap Law" is more restrictive on the ability of a local unit to increase its overall appropriations, it does not limit the obligation of the Township to levy *ad valorem* taxes upon all taxable real property within the Township to pay debt service on the Bonds and the Notes. The Cap Law provides that a local unit shall limit any increase of its budget to 2.5% or the index rate, whichever is less, over the previous year's final appropriations subject to certain exceptions. The "index rate" is the

rate of annual percentage increase in the Implicit Price Deflator for State and Local Government Purchases of Goods and Services computed by the United States, Department of Commerce. Among the exceptions to the limitations imposed by the Cap Law are capital expenditures; debt service; extraordinary expenses approved by the Local Finance Board for implementation of an interlocal services agreement; expenditures mandated as a result of certain emergencies; and certain expenditures for services mandated by law.

Additionally, legislation constituting P.L. 2010, c. 44, was adopted on July 13, 2010 (S-29R1), which, among other things, imposes a two percent (2.00%) cap on the tax levy that municipalities, counties, fire districts and solid waste collection districts may impose, with very limited exceptions and subject to certain adjustments.

Exclusions from the two percent (2.00%) tax levy cap include: (i) increases required to be raised by taxation for capital expenditures, including debt service as defined by law; (ii) increases in pension contributions and accrued liability for pension contributions in excess of 2.00%; (iii) increases in health care costs equal to that portion of the actual increase in total health care costs for the budget year that is in excess of 2.00% of the total health care costs in the prior year, but is not in excess of the product of the total health care costs in the prior year and the average percentage increase of the State Health Benefits Program, P.L.1961, c.49 (C.52:14-17.25 *et seq.*), as annually determined by the Division of Pensions and Benefits in the Department of the Treasury; and (iv) and extraordinary costs incurred by a local unit directly related to a declared emergency, as defined by regulation promulgated by the Commissioner of the Department of Community Affairs, in consultation with the Commissioner of Education, as appropriate. The amendments to the tax levy sections of the "Cap Law" (specifically, *N.J.S.A. 40A:4-45-46*) in 2010 no longer permit municipalities, counties, fire districts and solid waste collection districts to request approval from the Local Finance Board for a waiver to increase the amount to be raised by taxation in excess of the two percent (2.00%) cap. However, counties, municipalities, fire districts and solid waste collection districts may request, through a public question submitted to the voters, an increase in the amount to be raised by taxes above the two percent (2.00%) tax levy cap. Such approval must be achieved by an affirmative vote in excess of fifty percent (50%) of those voting on such public question.

Neither the tax levy limitation nor the "Cap Law" limits the obligation of the Township to levy *ad valorem* taxes upon all taxable real property within the Township to pay debt service on its bonds or notes, including the Bonds and the Notes.

Miscellaneous Revenues

N.J.S.A. 40A:4-26 provides that: "No miscellaneous revenues from any source shall be included as an anticipated revenue in the budget in an amount in excess of the amount actually realized in cash from the same source during the next preceding fiscal year, unless the [D]irector shall determine upon application by the governing body that the facts clearly warrant the expectation that such excess amount will actually be realized in cash during the fiscal year and shall certify such determination, in writing, to the local unit." Such determination may be made by the governing body and the chief financial officer in any year during which the local unit is subject to local examination.

No budget or amendment shall be adopted unless the Director has previously certified the approval of such anticipated revenues.

Real Estate Taxes

Receipts from Delinquent Taxes - Revenues are permitted by *N.J.S.A. 40A:4-29* to be anticipated in the annual budget for collection of delinquent taxes of prior years. The maximum amount permitted to be anticipated is determined by applying the collection rate of the prior year's delinquent taxes to the total amount of delinquent taxes outstanding at the beginning of the current year.

Current Year Tax Levy and Reserve for Uncollected Taxes - The current year's taxes to be levied are determined by adding the sums of the cash required from taxes to support the municipal, school, county and special district budgets, if any, together with the amount of an appropriation required to be included in the annual municipal budget entitled "Reserve for Uncollected Taxes", less the total of anticipated revenues. The inclusion of the "Reserve for Uncollected Taxes" appropriation in the current year's budget protects the municipality from taxes currently unpaid. The "Reserve for Uncollected Taxes" is required to be, at a minimum, an amount sufficient to provide for the same percentage of uncollected taxes in the current year as was experienced in the immediately preceding year, the average of the previous three years in accordance with P.L. 2000, c. 126, or the previous year collection percentage after reducing the previous year levy by tax appeal judgments of the county tax board pursuant to R.S.54:3-21 *et seq.*, or the State tax court pursuant to R.S.54:48-1 *et seq.* in accordance with Chapter 56 of P.L. 2010.

N.J.S.A. 40A:4-41 provides with regard to current taxes that: "Receipts from the collection of taxes levied or to be levied in the municipality, or in the case of a county for general county purposes and payable in the fiscal year, shall be anticipated in an amount which is not in excess of the percentage of taxes levied and payable during the next preceding fiscal year which was received in cash by the last day of such preceding fiscal year."

Another provision requires that an additional amount (the "reserve for uncollected taxes") be added to the tax levy required for all current budget appropriations and school and county taxes of the current fiscal year. The reserve requirement is calculated as follows:

$$\frac{\text{Levy Required for Current Budget,} \\ \text{School and County Taxes}}{\text{Prior Year's Percentage of Current} \\ \text{Tax Collections (or Lesser \%)}} = \text{Total Taxes to be Levied}$$

Deferral of Current Expenses

Emergency appropriations (i.e., those made after the adoption of the budget and determination of the tax rate for an unforeseen event or purpose) may be authorized by the governing body of the local governmental units. With minor exceptions, however, such appropriations must be included in full in the following year's budget. When such appropriations exceed three percent (3.00%) of the adopted operating budget, consent of the Director of Local Government Services must be obtained.

The exceptions are certain enumerated projects to cover the cost of the extraordinary expense for the repair, or reconstruction of streets, roads or bridges, or other public property damaged by snow, ice, frost or flood, where such expense was not foreseen at the time of the adoption of the budget, which may be amortized over three years; and tax map preparations, revision of ordinances, revaluations, master plan preparation, studies and planning necessary

for the installation and construction of a sanitary sewer system, and payments of accumulated sick and vacation time which may be amortized over five years.

Budget Transfers

Budget transfers provide a degree of flexibility and afford a control mechanism. Transfers between major appropriation accounts are prohibited until the last two months of the year and, although subaccounts within an appropriation are not subject to the same year-end transfer restriction, they are subject to internal review and approval.

Capital Budget

In accordance with the Local Budget Law, each local unit shall prepare and adopt a capital budget, in conjunction with its annual operating budget, for any year in which it proposes to undertake a capital project. Every local unit which adopts a capital budget must also adopt a three (3) year capital program unless the local unit's population exceeds 10,000 where a six (6) year capital program is required.

Utility Budget

The Township's public sewer utility is supported, in addition to the general taxing power upon real property, by the revenues generated by the operations of the utility. A separate budget is established for the utility. The anticipated revenues and appropriations for the utility are set forth in a budget, which is required to be balanced and to fully provide for debt service. The regulations regarding anticipation of revenue and deferral of charges apply equally to the budget of the utility. Deficits or anticipated deficits in utility operations which cannot be provided for from utility surplus, if any, are required to be raised in the "Current" or operating budget.

Related Constitutional and Statutory Provisions

In the general election of January 2, 1976, as amended by the general election of January 6, 1984, the following Article 8, Section 1, Paragraph 7, with respect to a state income tax, was added to the State Constitution:

No tax shall be levied on personal incomes of individuals, estates and trusts of this State unless the entire net receipts therefrom shall be received into the treasury, placed in a perpetual fund and be annually appropriated, pursuant to formulas established from time to time by the Legislature, to the several counties, municipalities and school districts of this State exclusively for the purpose of reducing or offsetting property taxes. In no event, however, shall a tax so levied on personal income be levied on payments received under the Federal Social Security Act, the Federal Railroad Retirement Act, or any federal law which substantially reenacts the provisions of either of those laws.

A progressive state income tax is currently in effect in the State.

The State Constitution may only be amended after: (i) approval of a proposed amendment by three-fifths (3/5) of all of the members of each house of the State Legislature and approval by a majority vote in a statewide referendum; or (ii) approval in two successive

legislative years by a majority of all of the members of each house and approval by a majority vote in a statewide referendum. Amendments failing to receive voter approval may not be resubmitted for voter approval before the third succeeding general election after such disaffirmance.

The Municipal Finance Commission

The Municipal Finance Commission ("Commission") was created in 1931 to assist in the financial rehabilitation of municipalities, which had defaulted in their obligations. The powers of the Commission are exercised today by the Local Finance Board. The previously discussed elements of the local finance system are intended to prevent default on obligations or occurrence of severe fiscal difficulties in any local unit. Should extreme economic conditions adversely affect any local unit, the "Municipal Finance Commission Statutes" are available to assist in restoring the stability of the local unit.

Any holder of bonds or notes which are in default for over sixty (60) days (for payment of principal or interest) may bring action against such municipality in the State's Superior Court. Any municipality may declare itself unable to meet its obligations and bring action in such court. In either case, the court's determination that the municipality is in default or unable to meet its obligations causes the Commission to become operative in that municipality.

The Commission exercises direct supervision over the finances and accounts of any local unit under its jurisdiction. The Commission is authorized to appoint an auditor to examine and approve all claims against the municipality and to serve as comptroller for that community. The Commission is also directed to supervise tax collections and assessments, to approve the funding of municipal school district indebtedness, the adjustment or composition of the claims of creditors and the readjustment of debts under the Federal Municipal Bankruptcy Act. Such Act permits municipalities to have access to bankruptcy court for protection against suits by bondholders and creditors.

The Local Finance Board also serves as the "Funding Commission" to exercise supervision over the funding or refunding of local government debt. Any county or municipality seeking to adjust its debt service must apply to and receive the approval of such Funding Commission for the proposed reorganization of its debt.

Limitation of Remedies Under Federal Bankruptcy Code

The rights and remedies of the registered owners of the Bonds and the Notes are subject to the provisions of Chapter 9 of the Federal Bankruptcy Code of the United States ("Bankruptcy Code"). In general, Chapter 9 permits, under prescribed circumstances, but only after an authorization by the applicable state legislature or by a governmental officer or organization empowered by state law to give such authorization, a political subdivision of a state to file a petition for relief in a bankruptcy court of the United States if it is insolvent or unable to meet its debts as they mature and desires to effect a plan to adjust its debts.

The State has authorized the political subdivisions thereof to file such petitions for relief under the Bankruptcy Code pursuant to and subject to Article 8 of the Act. The Act provides that such petitions may not be filed without the prior approval of the Commission and that no plan of readjustment of the local unit's debts may be filed or accepted by the petitioner without express authority from the Commission to do so.

THE ABOVE REFERENCES TO THE BANKRUPTCY CODE ARE NOT TO BE CONSTRUED AS AN INDICATION THAT THE TOWNSHIP EXPECTS TO RESORT TO THE PROVISIONS OF SUCH BANKRUPTCY CODE OR THAT, IF IT DID, SUCH ACTION WOULD BE APPROVED BY THE COMMISSION, OR THAT ANY PROPOSED PLAN WOULD INCLUDE A DILUTION OF THE SOURCE OF PAYMENT OF AND SECURITY OF THE BONDS AND THE NOTES.

THE SUMMARIES OF AND REFERENCES TO THE STATE CONSTITUTION AND OTHER STATUTORY PROVISIONS ABOVE ARE NOT AND SHOULD NOT BE CONSTRUED AS COMPREHENSIVE OR DEFINITIVE. ALL REFERENCES TO SUCH DOCUMENTS ARE QUALIFIED IN THEIR ENTIRETY BY REFERENCE TO THE PARTICULAR DOCUMENT, THE FULL TEXT OF WHICH MAY CONTAIN QUALIFICATIONS OF AND EXCEPTIONS TO STATEMENTS MADE HEREIN.

TAXATION

Procedure for Assessment and Collection of Taxes

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of maintaining new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners. The last complete revaluation of property within the Township was in 2009 effective for the 2010 tax year.

Upon the filing of certified adopted budgets by the Township, the School District and the County of Gloucester ("County"), the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in *N.J.S.A. 54:4-1 et seq.* Special taxing districts are permitted in the State for various special services rendered to the properties located within the special district.

Tax bills are due quarterly on February 1, May 1, August 1 and November 1. Installments not paid on or before the due date are subject to interest penalties of 8% per annum on the first \$1,500.00 of the delinquency and 18.00% per annum on any amounts in excess of \$1,500.00. These interest penalties are the maximum permitted under New Jersey Statutes. Additionally, a 6.00% penalty is charged on any delinquencies in excess of \$10,000.00 if not paid by the end of each year. Delinquent taxes open for one year or more are annually included in a tax sale in accordance with New Jersey Statutes. Tax liens retained by the Township are periodically assigned to the Township Solicitor for "in rem foreclosures" in order to acquire title to these properties.

Tax Appeals

The State Statutes provide a taxpayer with remedial procedures for appealing an assessment deemed excessive. The taxpayer has a right to petition the New Jersey Board of Taxation ("Tax Board") on or before the first day of April of the current tax year for review. The Tax Board has the authority, after a hearing, to decrease, increase or reject the appeal petition. These adjustments are usually concluded within the current tax year and reductions are shown as canceled or remitted taxes for that year. If the taxpayer feels his petition was unsatisfactorily reviewed by the Tax Board, appeal may be made to the State Tax Court. State Tax Court

appeals tend to take several years prior to settlement and any losses in tax collection from prior years are charged directly to operations.

TAX MATTERS

Federal

In the opinion of Parker McCay P.A., Mount Laurel, New Jersey, Bond Counsel to the Township, assuming continuing compliance by the Township with the tax covenants described below, under existing law, interest on the Bonds and the Notes is not included for federal income tax purposes in the gross income of the owners thereof pursuant to Section 103 of the Internal Revenue Code of 1986, as amended ("Code"), and is not a specific item of tax preference under Section 57 of the Code for purposes of calculating the alternative minimum tax imposed on individuals and corporations pursuant to Section 55 of the Code.

The adjustment for "adjusted current earnings" set forth in Section 56(g) of the Code is required in determining a corporation's alternative minimum taxable income. Alternative minimum taxable income is increased by seventy-five percent (75%) of the excess, if any, of the "adjusted current earnings" of a corporation over the alternative minimum taxable income (determined without regard to this adjustment or the alternative tax net operating loss deduction).

Interest on the Bonds and the Notes is included in computing a corporation's "adjusted current earnings." Accordingly, a portion of the interest on the Bonds and the Notes is included in computing such corporation's alternative minimum taxable income for such year.

Section 884 of the Code imposes on certain foreign corporations a branch profits tax equal to thirty percent (30%) of the "dividend equivalent amount" for the taxable year. Interest on the Bonds and the Notes received or accrued by a foreign corporation subject to the branch profits tax may be included in computing the "dividend equivalent amount" of such corporation.

In addition, passive investment income, including interest on the Bonds and the Notes, may be subject to federal income taxation under Section 1375 of the Code for any S corporation that has Subchapter C earnings and profits at the close of the taxable year, if more than twenty-five percent (25%) of the gross receipts of such S corporation is passive investment income.

In rendering its opinion, Bond Counsel has relied on the Township's covenants contained in the Certificate as to Non-Arbitrage and Other Tax Matters, that it will comply with the applicable requirements of the Code, relating to, *inter alia*, the use and investment of proceeds of the Bonds and the Notes and rebate to the United States Treasury of specified arbitrage earnings, if any, under Section 148(f) of the Code. Failure of the Township to comply with such covenants could result in the interest on the Bonds and the Notes being subject to federal income tax from the date of issue. Bond Counsel has not undertaken to monitor compliance with such covenants or to advise any party as to changes in the law after the date of issuance of the Bonds and the Notes that may affect the tax-exempt status of the interest on the Bonds and the Notes.

Ownership of the Bonds and the Notes may result in collateral federal income tax consequences to certain taxpayers including, without limitation, certain holders of an interest in a financial asset securitization investment trust, controlled foreign corporations, property and casualty insurance companies, individual recipients of Social Security or Railroad Retirement

benefits, individuals who otherwise qualify for the earned income credit, and to individuals and families that qualify for a premium assistance credit amount under Section 36B of the Code. The Code denies the earned income credit to an individual who is otherwise eligible if the aggregate amount of disqualified income of the taxpayer for the taxable year exceeds certain limits set forth in Sections 32(i) and (j) of the Code. Interest on the Bonds and the Notes will constitute disqualified income for this purpose. The Code also provides that the earned income credit is phased out if the modified adjusted gross income of the taxpayer exceeds certain amounts. Interest on the Bonds and the Notes is included in determining the modified adjusted gross income of the taxpayer. Section 36B of the Code provides that the amount of the premium assistance credit amount is in part determined by the household income. Section 36B(d) of the Code provides that household income consists of the "modified adjusted gross income" of the taxpayer and certain other individuals. "Modified adjusted gross income" means adjusted gross income increased by certain amounts, including interest received or accrued by the taxpayer which is exempt from tax, such as the interest on the Bonds and the Notes.

In addition, attention is called to the fact that Section 265(b)(1) of the Code eliminates the interest deduction otherwise allowable with respect to indebtedness deemed incurred by banks, thrift institutions and other financial institutions to purchase or to carry tax-exempt obligations acquired after August 7, 1986 other than "qualified tax-exempt obligations" as defined in Section 265(b)(3) of the Code. The Township has **not** designated the Bonds or the Notes as "qualified tax-exempt obligations" for the purposes of Section 265(b)(1) of the Code.

Owners of the Bonds and the Notes should consult their own tax advisors as to the applicability and effect on their federal income taxes of the alternative minimum tax, the branch profits tax and the tax on passive investment income of S corporations, as well as the applicability and effect of any other collateral federal income tax consequences.

New Jersey

Bond Counsel is also of the opinion that interest on the Bonds and the Notes and any gain from the sale thereof is not included in the gross income of the owners thereof under the New Jersey Gross Income Tax Act, as presently enacted and construed.

Changes in Federal and State Tax Law

From time to time, there are legislative proposals in the United States Congress and in the states that, if enacted, could alter or amend the Federal and State tax matters referred to above or adversely affect the market value of the Bonds and the Notes. It cannot be predicted whether or in what form any such proposals might be enacted or whether, if enacted, it would apply to bonds or notes issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the Bonds and the Notes.

PROSPECTIVE PURCHASERS OF THE BONDS AND THE NOTES SHOULD CONSULT WITH THEIR OWN TAX ADVISORS REGARDING ANY FEDERAL AND STATE INCOME TAX LEGISLATION, WHETHER CURRENTLY PENDING OR PROPOSED, REGULATORY INITIATIVES OR LITIGATION. THE OPINIONS EXPRESSED BY BOND COUNSEL ARE BASED UPON EXISTING LEGISLATION AND REGULATIONS AS INTERPRETED BY RELEVANT JUDICIAL AND REGULATORY AUTHORITIES AS OF THE DATE OF ISSUANCE AND DELIVERY OF THE BONDS AND THE NOTES AND BOND

COUNSEL HAS EXPRESSED NO OPINION AS OF ANY DATE SUBSEQUENT THERETO OR WITH RESPECT TO ANY PENDING LEGISLATION, REGULATORY INITIATIVES OR LITIGATION.

LITIGATION

To the knowledge of the Township's Solicitor, Brian J. Duffield, Esq., Mullica Hill, New Jersey ("Solicitor"), there is no litigation of any nature now pending or threatened, restraining or enjoining the issuance or the delivery of the Bonds and the Notes, or the levy or the collection of any taxes to pay the principal of or the interest on the Bonds and the Notes, or in any manner questioning the authority or the proceedings for the issuance of the Bonds and the Notes or for the levy or the collection of taxes, or contesting the corporate existence or the boundaries of the Township or the title of any of the present officers. Moreover, to the knowledge of the Solicitor, no litigation is presently pending or threatened that, in the opinion of the Solicitor, would have a material adverse impact on the financial condition of the Township if adversely decided.

RATINGS

Standard & Poor's Rating Services, a Standard & Poor's Financial Services LLC business ("S&P"), has assigned a rating of "AA" to the Bonds based upon the creditworthiness of the Township.

The Notes are not rated.

The ratings for the Bonds reflect only the views of S&P and an explanation of the significance of such ratings may only be obtained from S&P. The Township furnished to S&P certain information and materials concerning the Bonds and the Township. There can be no assurance that the ratings for the Bonds will be maintained for any given period of time or that such ratings may not be raised, lowered or withdrawn entirely if, in S&P's judgment, circumstances so warrant. Any downward change in or withdrawal of such ratings may have an adverse effect on the marketability or market price of the Bonds.

TOWNSHIP OF HARRISON, NEW JERSEY

By: _____
YVONNE BULLOCK, Chief Financial Officer

Dated: May __, 2017

APPENDIX A

GENERAL INFORMATION ON THE TOWNSHIP

GENERAL INFORMATION ON THE TOWNSHIP

History

The Township of Harrison, County of Gloucester, New Jersey ("Township") was incorporated in 1844 as Spicer Township; however, the name was changed to Harrison Township in 1845. The Township is located in the southeastern corner of Gloucester County ("County"), New Jersey, approximately 15 miles south of the City of Philadelphia. The Township is bordered by the municipalities of East Greenwich Township, Mantua Township, the Borough of Glassboro, Elk Township, South Harrison Township and Woolwich Township.

The Township is primarily a residential community, having experienced significant increased housing construction since the late 1980's.

Township Government

The Township operates under a Township Committee form of government as defined under N.J.S.A. 40A:63-1. The voters elect five members who, at the reorganization meeting, appoint a member to serve as Mayor. The Mayor is the chief executive officer of the Township. The government is empowered to levy taxes on real property, of which 81.5% of the properties are residential, 5% are farmland, 10.7% are vacant land, while the remaining 2.8% are commercial.

Responsibilities for various departments are divided among the members of the governing body. The governing body is responsible, among other things, for passing ordinances, adopting the budget and appointing officials. While the members adopt policy, the Township Administrator is charged with the responsibility of carrying-out the policies and for overseeing the day-to-day operations. The financial affairs of the Township are administered by the Chief Financial Officer, who reports to the Township Committee.

Fire Protection and Emergency Services

The Township is served by two volunteer fire companies organized through a fire district. The fire district budget is funded through a separate tax on real property owners. The two fire companies are equipped with modern firefighting apparatus.

There is twenty-four hour ambulance service provided by the County EMS system.

Police

The Police Department ("Department") consists of 14 full-time officers, 3 part time officers, and 3 Command staff officers and one full-time and one part-time police clerk who serve to provide public safety to the Township residents. Through the Department, a comprehensive education program is provided in the local schools. One resource officer is stationed at Clearview Regional High School.

Public Works

The Department of Public Works is responsible for the maintenance of the Township's streets, buildings, grounds and all activities at Ella Harris Recreational Facility, Pleasant Valley Recreation Park and William Wilt Sports Complex.

Trash collection and recycling of newspapers, paper, glass and aluminum is serviced by curbside collection through a private company. In addition, from April through November, Township residents can drop-off such items as grass clippings, tree branches and leaves at the Township Recycling Center. In 2017, we introduced monthly curbside service pick-up for brush.

Recreation

The recreation program within the community is administered by the Recreation Commission whose function is to sponsor community wide events throughout the year.

The Ella Harris Recreational Facility is offered to Township residents, and includes a park, ball fields, street hockey, basketball courts, a playground area, picnic areas, a concession stand and tennis courts.

Pleasant Valley Recreational facility is a shared facility with the School district that includes sports fields, playground equipment, a basketball court and gazebo.

William Wilt Soccer Complex is offered to residents for recreational activities, includes grass and turf sports fields, walking path, concession stand and playground equipment.

Other recreational facilities available to Township residents are the Raccoon Valley Swim Club, a private swim and social club.

Library

The Mullica Hill branch of the Gloucester County Library ("Library") was constructed in 1994 and is accessible to all residents of the County as well as the Township. The Library is situated at the intersection of Route 45 and Wolfert Station Road between the Mullica Hill and Jefferson sections of the Township. The Library is 27,000 sq. ft. and houses 98,000 items consisting of books, videos, CD's, newspapers, magazines and journals. In addition, there are public workstations with internet access and word processing programs. There are also workstations that are equipped with educational software for children.

Health Care Facilities

Located in the County are two acute care facilities, Inspira Health Hospital and Kennedy Memorial Hospital, which are in Woodbury and Washington Township, New Jersey, respectively. Located in Salem County is Elmer Hospital. Haddon Pediatric recently opened an office in Harrison Township, and various other medical facilities are located at the Mullica Hill Commons Plaza.

Inspira Emergency Care Center, an out-patient office facility, is located within the Township as well.

Inspira received state approval to build a new state of the art Regional Hospital in the Richwood section of our township that will connect to Rowan's Western Campus and technology Park. The hospital complex will also include medical offices for doctors and specialists in the medical field which will bring in future rates.

Transportation

Public transportation is provided to all residents by New Jersey Transit. Air travel is also provided by the Philadelphia International Airport, which is located in the City of Philadelphia, Pennsylvania.

Exit 2 of the New Jersey Turnpike is located just outside the northeast corner of the Township and provides for easy access to both metropolitan Philadelphia, Pennsylvania and Wilmington, Delaware. New Jersey State Highway Route 55, which has two interchanges along the eastern side of the Township, provides limited access highway connections to Deptford, New Jersey to the north and to Vineland, New Jersey to the south.

US Route 322 crosses the Township from west to east connecting not only with New Jersey Route 55 and the New Jersey Turnpike, but also with I-295, which runs parallel to the Turnpike, and with the Commodore Barry Bridge, which provides access across the Delaware River and to I-95.

These major highways form the principal elements of the transportation system in the County and are important links between the Township and surrounding communities.

Sewer Utility

The Sewer Connection Ordinance was adopted in December of 1966 and the Sewer Utility ("Utility") was organized in March of 1975 by ordinance.

The Harrison Township Wastewater Treatment Facility presently provides collection service to an area specified by the approved Wastewater Management Plan with 16 pump stations, gravity lines, force mains, manholes, and currently has approximately 2100 customers.

In 1999, the Township constructed a 0.8 MGD Wastewater Treatment Plant to accommodate the increasing sewer service area. This replaced a 1969 0.4 MGD plant. The new facility was completed in October 2004. At this time, the upgrades, rehabilitation, reconstruction and replacement regarding certain pumping stations was substantially complete and was needed in order to further provide sewer capacity to the remaining sewer service area.

Plans are currently under review to design and construct a new sewer system to support the new hospital and commercial growth in the Richwood section of town. The system will be constructed and connected to the Gloucester County Sewer Authority.

Water Supply

South Jersey American Water Company provides water to approximately 2,667 Township residences. All other residents rely on their own private wells for water usage.

Planning and Development

The existing housing stock in the Township consists mainly of single-family dwellings. The Township's Land Use Plan continues to provide for a range of housing types to meet a variety of needs, inclinations and economic circumstances. In addition to providing a range of housing types, an overall theme of the plan is to channel moderate and high density residential development to specific areas of the Township while maintaining the prevailing suburban and rural atmosphere.

EDUCATION(1)

Primary and Secondary

The public school system in the Township is operated by the Harrison Township Board of Education ("Board of Education") as a type II school district. It functions independently through a nine-member board, elected by the voters in alternate three-year terms.

The Board of Education annually prepares an operating and maintenance, capital outlay and debt service budget. The amounts to be raised by taxation for operating and maintenance expenses and capital outlay projects are submitted to the voters for approval. If the amounts are disapproved, the Township Committee fixes an amount and certifies same to the Board of Education and to the County Board of Taxation. If the Board of Education determines that the amount certified by the Township is insufficient to operate a thorough and efficient school system, the Board of Education may appeal to the State Commission of Education to restore the local funds eliminated.

The school system provides education programs for students from kindergarten to the sixth grade level. All seventh through twelfth grade students attend the Clearview Regional High School District along with students from the Township of Mantua.

HIGHER EDUCATION FACILITIES

Rowan College at Gloucester County

Rowan College at Gloucester County (which opened in 1967 as Gloucester County College) is a publicly supported, co-educational two-year institution, fully accredited by the Middle States Commission on Higher Education.

The College offers more than 70 academic programs in business, humanities, allied health, technologies and the sciences. A number of selective admission programs related to the allied-health field are also available. Total enrollment for the Fall 2015 semester was 6,836 students (3,807 full-time and 3,029 part-time students).

Rowan College maintains a well-rounded cultural, artistic and sports calendar of events. In addition, the College's Division of Continuing Education provides numerous educational, career training and personal enrichment courses as well as outreach programs to community residents.

The College awards both certificate and associate degrees leading to immediate career and transfer opportunities. Rowan College continues to offer students a variety of four-year degree options with transfer agreements with university partners, in addition to an extensive listing of articulation agreements for students pursuing baccalaureate and master's degree programs. Students also have the option to complete advanced degrees without leaving the Rowan College campus through partnership agreements with Rowan University, Fairleigh Dickinson University and Wilmington University.

Rowan College at Gloucester County is located on a 250-acre campus on Tanyard Road in Deptford, New Jersey.

Rowan University

Rowan University ("University") (formerly known as Glassboro State College) is a selective, medium-sized state university located in southern New Jersey, between Atlantic City and Philadelphia. In 1992, the University received a \$100 million gift from Henry and Betty Rowan, one of the largest gifts ever bestowed on a public university. The gift has been a catalyst for the University's transformation into a university of regional prominence. Founded in 1923 as a school for teachers, the University enrolls over 10,000 students in Business, Communications, Education, Engineering, Fine & Performing Arts, Liberal Arts and a Graduate School. The 200-acre campus contains 31 buildings, including eight (8) residence halls, three (3) apartment complexes and one (1) town-house project. The University was also the site of the historic Summit Conference between President Johnson and Russian Premier Kosygin in 1967.

Enrollment is approximately 14,778 students (12,022 undergraduates, 1,927 graduates, and 829 professionals).⁽³⁾

As a result, in part, of a State reorganization plan transferring certain functions, powers and duties of the University of Medicine and Dentistry of New Jersey ("UMDNJ") in the City of Camden to the University, construction is underway on a \$140 million four-year allopathic medical school. The University is partnering with the Cooper University Hospital to develop the Cooper Medical School of Rowan University. The medical school building is a six-story, 200,000 square foot, LEED certified building. At full capacity, it is anticipated that the new medical school will have an annual enrollment of approximately 400 students. The medical school will be the first four year allopathic medical school in South Jersey and the first new medical school in the State of New Jersey ("State") in more than 30 years. The facility held a Grand Opening on July 24, 2012 and welcomed their first class of students in the Fall of 2012.

On August 22, 2012, after passage by the New Jersey State Legislature, the Governor signed the New Jersey Medical and Health Sciences Education Restructuring Act ("Restructuring Act") into law. The Restructuring Act reorganizes certain higher education facilities throughout the State of New Jersey. In relevant part, UMDNJ facilities located in the City of Camden, New Jersey and the UMDNJ School of Osteopathic Medicine in Stratford, New Jersey will be transferred from UMDNJ to the University. Additionally, the Restructuring Act creates: (i) a Rutgers, the State University of New Jersey – Camden Campus ("Rutgers-Camden") Board of Directors with responsibilities including the policies and administration of Rutgers-Camden; and (ii) a joint University/ Rutgers-Camden Board of Directors with responsibilities including the policies and administration of Rowan and Rutgers-Camden in the area of Health Sciences.

In furtherance of the University's growth, the construction of several new facilities is planned, including new buildings for the Colleges of Business and Engineering, a housing village, a health sciences facility and an academic building to serve the entire university. These projects, more than \$300 million worth of construction over the next eight years, will generate much needed construction jobs in the short-term and increase access to higher education in the long-term.

Gloucester County Vocational and Technical School District

The Gloucester County Vocational and Technical School District ("District") provides a full range of regionalized occupational and technical County-wide educational services and programs appropriate to the needs of the students of 13 public high schools, and adults who seek educational opportunities that lead to employment or higher education. The District also provides programming for secondary students who wish to continue to higher education through Tech Prep matriculation agreements with various county colleges and four-year institutions.

For the 2014-2015 school year, approximately 1,510 students are enrolled in the District's Academy and Career-Technical programs. Recent construction has added, among other things, a cafeteria, gymnasium and classrooms to the academic facilities in order to keep pace with demand.

In addition to its day school enrollment, the District serves an average of 4,000 residents in various programs, including: (i) adult and continuing education programs; (ii) County employees in customized training programs; (iii) adults in the skill center; (iv) over 400 at-risk youth and their families in school-based youth services counseling; (v) the U.S. swim team of 175 members; and (vi) the joint auto technology program with GCC serving 40 adult students in an AAS degree program.

Gloucester County Special Services School District

Gloucester County Special Services School District ("GCSSSD") provides a wide range of educational services to the families of the County. GCSSSD serves children with special needs from birth to age 21. The enrollment for the 28-acre Bankbridge complex in Deptford, for the 2014-2015 school year, was approximately 716 special needs students.

Bankbridge Regional opened its doors in September 2000 and serves secondary level students who have special needs. In September 2002, GCSSSD opened Bankbridge Elementary School. The

elementary school is located next to Bankbridge Regional, and serves special needs students from pre-kindergarten to grade 5.

The Bankbridge Development Center ("BDC") opened in 2007. With an emphasis on developing skills in the areas of communication, socialization, and independence, the BDC strives toward helping students become participating and contributing members of their community. Education, advocacy, public awareness efforts, and the promotion of research form the cornerstones of the activities. Together, they can promote lifelong access and opportunity for all individuals within the autism spectrum and/or multiply disabled.

BDC student outcome goals include, but are not limited to:

- The development of a functional communication system in order to increase interaction and enhance adaptive behaviors.
- Effectively providing functional, skill based instruction to develop each student’s social, behavioral and academic abilities.
- Providing students with the skills necessary to become contributing and functional members of society.

The staff at BDC is dedicated to educating and supporting the special needs students who attend BDC. Each classroom and specialty area has been carefully designed to provide an encouraging but challenging learning environment to help the children reach their maximum potential. The programs are tailored to meet the specific needs of each child. The philosophy, goals, and objectives of the BDC reflect the diversity of the children they serve. Programs are designed to meet their educational, social, and emotional needs.

In addition to the schools, GCSSSD provides the following services to support the special needs children of the County: (i) the Early Intervention Program for children from birth to age 3 and their families; and (ii) the Center for Regional Education Support Services (CRESS) which provides professional services to the school districts in the County and the County of Camden.

GCSSSD also provides support to nonpublic students through their schools including remedial programs, speech-language therapy and textbook purchasing. GCSSSD's Special Projects Program provides Migrant Services to more than 3,000 students and families throughout the southern region of New Jersey.

TOWNSHIP OF HARRISON
Selected Information – Substantially All Disclosures Required
By the Regulatory Basis of Accounting Have Been Omitted
For the Year Ended December 31, 2016

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Financial Reporting Entity - The Township of Harrison was incorporated in 1844 and is located in southeastern corner of Gloucester County, New Jersey approximately twenty miles south of the City of Philadelphia. The present population according to the 2010 estimated census is 12,417.

The Township is governed under the Township Committee form of government, with a five-member Committee. The Committee is elected directly by the voters in partisan elections to serve three-year terms of office on a staggered basis, with one or two seats coming up for election each year. At an annual reorganization meeting, the Committee selects one of its members to serve as Mayor and another as Deputy Mayor. Legislative and executive power is vested in the Committee.

Component Units - The Township had no component units as defined by Governmental Accounting Standards Board Statement No. 14, as amended by GASB Statements No. 39 and No. 61.

Measurement Focus, Basis of Accounting and Financial Statement Presentation - The financial statements of the Township contain all funds and account groups in accordance with the *Requirements of Audit* ("Requirements") as promulgated by the State of New Jersey, Department of Community Affairs, Division of Local Government Services. The principles and practices established by the *Requirements* are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Generally, the financial statements are presented using the flow of current financial resources measurement focus and modified accrual basis of accounting with minor exceptions as mandated by these *Requirements*. In addition, the prescribed accounting principles previously referred to differ in certain respects from accounting principles generally accepted in the United States of America applicable to local government units. The more significant differences are explained in this note.

In accordance with the *Requirements*, the Township accounts for its financial transactions through the use of separate funds which are described as follows:

Current Fund - The current fund accounts for resources and expenditures for governmental operations of a general nature, including federal and state grant funds.

Trust Funds - The various trust funds account for receipts, custodianship, and disbursement of funds in accordance with the purpose for which each reserve was created.

General Capital Fund - The general capital fund accounts for receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the current fund.

Sewer Utility Operating and Capital Funds - The sewer utility operating and capital funds account for the operations and acquisition of capital facilities of the municipally owned sewer operations.

General Fixed Asset Group of Accounts - The general fixed asset group of accounts is utilized to account for property, land, buildings, and equipment that have been acquired by other governmental funds.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Budgets and Budgetary Accounting - The Township must adopt an annual budget for its current, municipal open space and sewer utility funds in accordance with N.J.S.A. 40A:4 et seq. N.J.S.A. 40A:4-5 requires the governing body to introduce and approve the annual municipal budget no later than February 10 of each year. At introduction, the governing body shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper published and circulating in the municipality. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the governing body may, by majority vote, adopt the budget or may amend the budget in accordance with N.J.S.A. 40A:4-9. Amendments to adopted budgets, if any, are detailed in the statements of revenues and expenditures.

An extension of the statutory dates for introduction, approval and adoption of the municipal budget may be granted by the Director of the Division of Local Government Services, with the permission of the Local Finance Board.

Budgets are adopted on the same basis of accounting utilized for the preparation of the Township's financial statements.

Cash, Cash Equivalents and Investments - Cash and cash equivalents include petty cash, change funds and cash on deposit with public depositories. All certificates of deposit are recorded as cash regardless of the date of maturity. Investments are stated at cost; therefore, unrealized gains or losses on investments have not been recorded.

New Jersey municipal units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey municipal units. In addition, other State statutes permit investments in obligations issued by local authorities and other state agencies.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

The cash management plan adopted by the Township requires it to deposit funds in public depositories protected from loss under the provisions of the Act.

Interfunds - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the current fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various statements of assets, liabilities, reserves and fund balance.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

General Fixed Assets - Accounting for governmental fixed assets, as required by N.J.A.C. 5:30-5.6, differs in certain respects from accounting principles generally accepted in the United States of America. In accordance with the regulations, all local units, including municipalities, must maintain a general fixed assets reporting system that establishes and maintains a physical inventory of nonexpendable, tangible property as defined and limited by the U.S. Office of Management and *Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Part 200, §200.12), except that the useful life of such property is at least five years. The Township has adopted a capitalization threshold of \$5,000.00, the maximum amount allowed by the Circular. Generally, assets are valued at historical cost; however, assets acquired prior to December 31, 1985 are valued at actual historical cost or estimated historical cost. No depreciation of general fixed assets is recorded. Donated general fixed assets are recorded at acquisition value as of the date of the transaction. Interest costs relative to the acquisition of general fixed assets are recorded as expenditures when paid. Public domain ("infrastructure") general fixed assets consisting of certain improvements such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized. Expenditures for construction in progress are recorded in the capital funds until such time as the construction is completed and put into operation. The Township is required to maintain a subsidiary ledger detailing fixed assets records to control additions, retirements, and transfers of fixed assets. In addition, a statement of general fixed asset group of accounts, reflecting the activity for the year, must be included in the Township's basic financial statements.

The regulations require that general fixed assets, whether constructed or acquired through purchase, grant or gift be included in the aforementioned inventory. In addition, property management standards must be maintained that include accurate records indicating asset description, source, ownership, acquisition cost and date, the percentage of Federal participation (if any), and the location, use, and condition of the asset. Periodically, physical inventories must be taken and reconciled with these records. Lastly, all fixed assets must be adequately controlled to safeguard against loss, damage, or theft.

Utility Fixed Assets - Property and equipment purchased by a utility fund are recorded in the utility capital account at cost and are adjusted for disposition and abandonment. The amounts shown do not represent replacement cost or current value. The reserve for amortization and deferred reserve for amortization accounts in the utility capital fund represent charges to operations for the cost of acquisition of property and equipment, improvements, and contributed capital.

Foreclosed Property - Foreclosed property is recorded in the current fund at the assessed valuation when such property was acquired and is fully reserved. Ordinarily it is the intention of the municipality to resell foreclosed property in order to recover all or a portion of the delinquent taxes or assessments and to return the property to a taxpaying basis. For this reason the value of foreclosed property has not been included in the general fixed asset group of accounts. If such property is converted to a municipal use, it will be recorded in the general fixed asset group of accounts.

Deferred Charges - The recognition of certain expenditures is deferred to future periods. These expenditures, or deferred charges, are generally overexpenditures of legally adopted budget appropriations or emergency appropriations made in accordance with N.J.S.A. 40A:4-46 et seq. Deferred charges are subsequently raised as items of appropriation in budgets of succeeding years.

Liens Sold for Other Governmental Units - Liens sold on behalf of other governmental units are not recorded on the records of the tax collector until such liens are collected. Upon their collection, such liens are recorded as a liability due to the governmental unit net of the costs of the initial sale. The related costs of sale are recognized as revenue when received.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fund Balance - Fund balances included in the current fund and sewer utility operating fund represent amounts available for anticipation as revenue in future years' budgets, with certain restrictions.

Revenues - Revenues are recorded when received in cash except for certain amounts which are due from other governmental units. Revenue from Federal and State grants are realized when anticipated as such in the Township's budget. Receivables for property taxes are recorded with offsetting reserves on the statement of assets, liabilities, reserves and fund balance of the Township's current fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Township which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Property Tax Revenues - Property tax revenues are collected in quarterly installments due February 1, May 1, August 1, and November 1. The amount of tax levied includes not only the amount required in support of the Township's annual budget, but also the amounts required in support of the budgets of the County of Gloucester, Township of Harrison School District, Clearview Regional High School District, and Township of Harrison Fire District No. 1. Unpaid property taxes are subject to tax sale in accordance with the statutes.

School Taxes - The municipality is responsible for levying, collecting and remitting school taxes for the Township of Harrison School District and the Clearview Regional High School District. Operations is charged for the Township's share of the amount required to be raised by taxation to operate the school districts for the period from July 1 to June 30, increased by the amount deferred at December 31, 2015 and decreased by the amount deferred at December 31, 2016.

County Taxes - The municipality is responsible for levying, collecting and remitting county taxes for the County of Gloucester. County taxes are determined on a calendar year by the County Board of Taxation based upon the ratables required to be certified to them on January 10 of each year. Operations is charged for the amount due the County for the year, based upon the ratables required to be certified to the County Board of Taxation by January 10 of the current year. In addition, operations is charged for the County share of added and omitted taxes certified to the County Board of Taxation by October 10 of the current year and due to be paid to the County by February 15 of the following year.

Fire District Taxes - The municipality is responsible for levying, collecting, and remitting fire district taxes for Township of Harrison Fire District No. 1. Operations is charged for the full amount required to be raised from taxation to operate the Fire District for the period from January 1 to December 31.

Reserve for Uncollected Taxes - The inclusion of the "Reserve for Uncollected Taxes" appropriation in the Township's annual budget protects the Township from taxes not paid currently. The Reserve, the minimum amount of which is determined on the percentage of collections experienced in the immediate preceding year, with certain exceptions, is required to provide assurance that cash collected in the current year will provide sufficient cash flow to meet expected obligations.

Expenditures - Expenditures are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when paid. However, for charges to amounts appropriated for "other expenses", an amount is encumbered through the issuance of a numerically controlled purchase order or when a contract is executed in accordance with N.J.A.C. 5:30-5.2. When encumbered charges are paid, the amount encumbered is simultaneously liquidated in its original amount. Encumbrances are offset by an account entitled reserve for encumbrances. The reserve is classified as a cash liability under New Jersey municipal accounting. At December 31, this reserve represents the portion of appropriation reserves that has been encumbered and is subject to the same statutory provisions as appropriation reserves.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Expenditures (Cont'd) - Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis; whereas interest on utility indebtedness is on the accrual basis.

Appropriation Reserves - Appropriation reserves covering unexpended appropriation balances are automatically created at year-end and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as income.

Long-Term Debt - Long-Term Debt, relative to the acquisition of capital assets, is recorded as a liability in the General Capital and Utility Capital Funds. Where an improvement is a "local improvement", i.e. assessable upon completion, long-term debt associated with that portion of the cost of the improvement to be funded by assessments is transferred to the trust fund upon the confirmation of the assessments or when the improvement is fully and permanently funded.

Compensated Absences and Postemployment Benefits - Compensated absences for vacation, sick leave and other compensated absences are recorded and provided for in the annual budget in the year in which they are paid, on a pay-as-you-go basis. Likewise, no accrual is made for postemployment benefits, if any, which are also funded on a pay-as-you-go basis.

FOR THE YEARS ENDED 2015, 2014, 2013, 2012 AND 2011

AUDITED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and
Members of the Township Committee
Township of Harrison
Mullica Hill, New Jersey 08062

Report on the Financial Statements

We have audited the accompanying statements of assets, liabilities, reserves and fund balance - regulatory basis of the various funds of the Township of Harrison, in the County of Gloucester, State of New Jersey, as of December 31, 2015, 2014, 2013, 2012 and 2011, and the related statements of operations and changes in fund balance - regulatory basis for the years then ended, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; and in compliance with audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

Basis for Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

As described in note 1 to the financial statements, the financial statements are prepared by the Township on the basis of the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the State of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

In our opinion, because of the significance of the matter discussed in the "*Basis for Adverse Opinion on Accounting Principles Generally Accepted in the United States of America*" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Township of Harrison, in the County of Gloucester, State of New Jersey, as of December 31, 2015, 2014, 2013, 2012 and 2011, or the results of its operations and changes in fund balance for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to previously present fairly, in all material respects, the assets, liabilities, reserves and fund balance - regulatory basis of the various funds of the Township of Harrison, in the County of Gloucester, State of New Jersey, as of December 31, 2015, 2014, 2013, 2012 and 2011, and the results of its operations and changes in fund balance - regulatory basis of such funds for the years then ended, in conformity with accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, as described in note 1.

Emphasis of Matter

Adoption of New Accounting Principles

As discussed in note 1 to the financial statements, during the year ended December 31, 2015, the Township adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. As a result of the regulatory basis of accounting, described in the previous paragraph, the implementation of these Statements only required financial statement disclosures. Our opinions are not modified with respect to this matter.

General Fixed Asset Group of Accounts - The general fixed asset group of accounts is utilized to account for property, land, buildings, and equipment that have been acquired by other governmental funds.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Budgets and Budgetary Accounting - The Township must adopt an annual budget for its current, municipal open space and sewer utility funds in accordance with N.J.S.A. 40A:4 et seq. N.J.S.A. 40A:4-5 requires the governing body to introduce and approve the annual municipal budget no later than February 10 of each year. At introduction, the governing body shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper published and circulating in the municipality. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the governing body may, by majority vote, adopt the budget or may amend the budget in accordance with N.J.S.A. 40A:4-9. Amendments to adopted budgets, if any, are detailed in the statements of revenues and expenditures.

An extension of the statutory dates for introduction, approval and adoption of the municipal budget may be granted by the Director of the Division of Local Government Services, with the permission of the Local Finance Board.

Budgets are adopted on the same basis of accounting utilized for the preparation of the Township's financial statements.

Cash, Cash Equivalents and Investments - Cash and cash equivalents include petty cash, change funds and cash on deposit with public depositories. All certificates of deposit are recorded as cash regardless of the date of maturity. Investments are stated at cost. Consequently, unrealized gain or loss on investments has not been recorded in accordance with Governmental Accounting Standards Board Statement No. 31.

New Jersey municipal units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey municipal units. In addition, other State statutes permit investments in obligations issued by local authorities and other state agencies.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

The cash management plan adopted by the Township requires it to deposit funds in public depositories protected from loss under the provisions of the Act.

Interfunds - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the current fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various statements of assets, liabilities, reserves and fund balance.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

General Fixed Assets - Accounting for governmental fixed assets, as required by N.J.A.C. 5:30-5.6, differs in certain respects from accounting principles generally accepted in the United States of America. In accordance with the regulations, all local units, including municipalities, must maintain a general fixed assets reporting system that establishes and maintains a physical inventory of nonexpendable, tangible property as defined and limited by the U.S. Office of Management and *Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Part 200, §200.12), except that the useful life of such property is at least five years. The Township has adopted a capitalization threshold of \$5,000.00, the maximum amount allowed by the Circular. Generally, assets are valued at historical cost; however, assets acquired prior to December 31, 1985 are valued at actual historical cost or estimated historical cost. No depreciation of general fixed assets is recorded. Donated general fixed assets are recorded at their estimated fair market value on the acquisition date. Interest costs relative to the acquisition of general fixed assets are recorded as expenditures when paid. Public domain ("infrastructure") general fixed assets consisting of certain improvements such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized. Expenditures for construction in progress are recorded in the capital funds until such time as the construction is completed and put into operation. The Township is required to maintain a subsidiary ledger detailing fixed assets records to control additions, retirements, and transfers of fixed assets. In addition, a statement of general fixed asset group of accounts, reflecting the activity for the year, must be included in the Township's basic financial statements.

The regulations require that general fixed assets, whether constructed or acquired through purchase, grant or gift be included in the aforementioned inventory. In addition, property management standards must be maintained that includes accurate records indicating asset description, source, ownership, acquisition cost and date, the percentage of Federal participation (if any), and the location, use, and condition of the asset. Periodically, physical inventories must be taken and reconciled with these records. Lastly, all fixed assets must be adequately controlled to safeguard against loss, damage, or theft.

Utility Fixed Assets - Property and equipment purchased by a utility fund are recorded in the utility capital account at cost and are adjusted for disposition and abandonment. The amounts shown do not represent replacement cost or current value. The reserve for amortization and deferred reserve for amortization accounts in the utility capital fund represent charges to operations for the cost of acquisition of property and equipment and improvements and contributed capital.

Foreclosed Property - Foreclosed property is recorded in the current fund at the assessed valuation when such property was acquired and is fully reserved. Ordinarily it is the intention of the municipality to resell foreclosed property in order to recover all or a portion of the delinquent taxes or assessments and to return the property to a taxpaying basis. For this reason the value of foreclosed property has not been included in the general fixed assets account group. If such property is converted to a municipal use, it will be recorded in the general fixed assets account group.

Deferred Charges - The recognition of certain expenditures is deferred to future periods. These expenditures, or deferred charges, are generally overexpenditures of legally adopted budget appropriations or emergency appropriations made in accordance with N.J.S.A. 40A:4-46 et seq. Deferred charges are subsequently raised as items of appropriation in budgets of succeeding years..

Liens Sold for Other Governmental Units - Liens sold on behalf of other governmental units are not recorded on the records of the tax collector until such liens are collected. Upon their collection, such liens are recorded as a liability due to the governmental unit net of the costs of the initial sale. The related costs of sale are recognized as revenue when received.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fund Balance - Fund balances included in the current fund and sewer utility operating fund represent amounts available for anticipation as revenue in future years' budgets, with certain restrictions.

Revenues - Revenues are recorded when received in cash except for certain amounts which are due from other governmental units. Revenue from Federal and State grants are realized when anticipated as such in the Township's budget. Receivables for property taxes are recorded with offsetting reserves on the statement of assets, liabilities, reserves and fund balance of the Township's current fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Township which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Property Tax Revenues - Property tax revenues are collected in quarterly installments due February 1, May 1, August 1, and November 1. The amount of tax levied includes not only the amount required in support of the Township's annual budget, but also the amounts required in support of the budgets of the County of Gloucester, Township of Harrison School District, Clearview Regional High School District, and Township of Harrison Fire District No. 1. Unpaid property taxes are subject to tax sale in accordance with the statutes.

School Taxes - The municipality is responsible for levying, collecting and remitting school taxes for the Township of Harrison School District and the Clearview Regional High School District. Operations is charged for the Township's share of the amount required to be raised by taxation to operate the school districts for the period from July 1 to June 30, increased by the amount deferred at December 31, 2014 and decreased by the amount deferred at December 31, 2015.

County Taxes - The municipality is responsible for levying, collecting and remitting county taxes for the County of Gloucester. County taxes are determined on a calendar year by the County Board of Taxation based upon the ratables required to be certified to them on January 10 of each year. Operations is charged for the amount due the County for the year, based upon the ratables required to be certified to the County Board of Taxation by January 10 of the current year. In addition, operations is charged for the County share of Added and Omitted Taxes certified to the County Board of Taxation by October 10 of the current year and due to be paid to the County by February 15 of the following year.

Fire District Taxes - The municipality is responsible for levying, collecting, and remitting fire district taxes for Township of Harrison Fire District No. 1. Operations are charged for the full amount required to be raised from taxation to operate the Fire District for the period from January 1 to December 31.

Reserve for Uncollected Taxes - The inclusion of the "Reserve for Uncollected Taxes" appropriation in the Township's annual budget protects the Township from taxes not paid currently. The Reserve, the minimum amount of which is determined on the percentage of collections experienced in the immediate preceding year, with certain exceptions, is required to provide assurance that cash collected in the current year will provide sufficient cash flow to meet expected obligations.

Expenditures - Expenditures are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when paid. However, for charges to amounts appropriated for "other expenses", an amount is encumbered through the issuance of a numerically controlled purchase order or when a contract is executed in accordance with N.J.A.C. 5:30-5.2. When encumbered charges are paid, the amount encumbered is simultaneously liquidated in its original amount. Encumbrances are offset by an account entitled reserve for encumbrances. The reserve is classified as a cash liability under New Jersey municipal accounting. At December 31, this reserve represents the portion of appropriation reserves that has been encumbered and is subject to the same statutory provisions as appropriation reserves.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Expenditures (Cont'd) - Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis; whereas interest on utility indebtedness is on the accrual basis.

Appropriation Reserves - Appropriation reserves covering unexpended appropriation balances are automatically created at year-end and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as income.

Long-Term Debt - Long-Term Debt, relative to the acquisition of capital assets, is recorded as a liability in the General Capital and Utility Capital Funds. Where an improvement is a "local improvement", i.e. assessable upon completion, long-term debt associated with that portion of the cost of the improvement to be funded by assessments is transferred to the trust fund upon the confirmation of the assessments or when the improvement is fully and permanently funded.

Compensated Absences and Postemployment Benefits - Compensated absences for vacation, sick leave and other compensated absences are recorded and provided for in the annual budget in the year in which they are paid, on a pay-as-you-go basis. Likewise, no accrual is made for postemployment benefits, if any, which are also funded on a pay-as-you-go basis.

Impact of Recently Issued Accounting Principles

Recently Issued and Adopted Accounting Pronouncements

For the year ended December 31, 2015, the Township adopted GASB 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, and GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. As a result of adopting such Statements, the Township was required to measure and disclose liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures related to their defined benefit pensions. As a result of the regulatory basis of accounting previously described in note 1, the implementation of these Statements only required financial statement disclosures. There exists no impact on the financial statements of the Township.

Note 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the Township's deposits might not be recovered. Although the Township does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the municipality in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled agency funds such as salary withholdings, bail funds, or funds that may pass to the municipality relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized in the schedule below. As of December 31, 2015, the Township's bank balances of \$30,107,008.41 were exposed to custodial credit risk as follows:

Insured by FDIC and GUDPA	\$ 28,646,797.13
Uninsured and Uncollateralized	<u>1,460,211.28</u>
Total	<u><u>\$ 30,107,008.41</u></u>

Note 8: PENSION PLANS

A substantial number of the Township's employees participate in one of the following defined benefit pension plans: the Public Employees' Retirement System ("PERS") and the Police and Firemen's Retirement System ("PFRS"), which are administered by the New Jersey Division of Pensions and Benefits. In addition, several Township employees participate in the Defined Contribution Retirement Program ("DCRP"), which is a defined contribution pension plan. This plan is administered by Prudential Financial for the New Jersey Division of Pensions and Benefits. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the PERS.

The following represents the membership tiers for PERS:

Tier Definition

Contributions

Public Employees' Retirement System - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over seven years beginning in July 2012. The member contribution rate was 6.92% in State fiscal year 2015. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The rate for members who are eligible for the Prosecutors Part of PERS (Chapter 366, P.L. 2001) increased from 8.5% of base salary to 10%. Employers' contributions are based on an actuarially determined amount which includes the normal cost and unfunded accrued liability.

The Township's contractually required contribution rate for the year ended December 31, 2015 was 11.70% of the Township's covered-employee payroll. This amount was actuarially determined as the amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

Due to the basis of accounting described in note 1, no liability has been recorded in the financial statements for this amount. Based on the PERS measurement date of June 30, 2014, the Township's contractually required contribution to the pension plan for the year ended December 31, 2014 was \$160,354.00, which was paid on April 1, 2015. Police and Firemen's Retirement System - The contribution policy is set by N.J.S.A. 43:16A and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 8.5% to 10.0% in October 2011. Employers' contributions are based on an actuarially determined amount which includes the normal cost and unfunded accrued liability.

Special Funding Situation Component - Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the State is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a *special funding situation* as defined by GASB Statement No. 68, and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to disclose in the notes to the financial statements of the local participating employers related to this legislation.

The Township's contractually required contribution rate for the year ended December 31, 2015 was 25.37% of the Township's covered-employee payroll. Public Employees' Retirement System - At December 31, 2015, the Township's proportionate share of the PERS net pension liability was \$4,605,599.00. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2015. The Township's proportion of the net pension liability was based on a projection of the Township's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. For the June 30, 2015 measurement date, the Township's proportion was .0205167471%, which was an increase of .00010654121% from its proportion measured as of June 30, 2014.

Actuarial Assumptions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

	<u>PERS</u>	<u>PFRS</u>
Inflation	3.04%	3.04%
Salary Increases:		
2012-2021	2.15% - 4.40% Based on Age	2.60% - 9.48% Based on Age
Thereafter	3.15% - 5.40% Based on Age	3.60% - 10.48% Based on Age
Investment Rate of Return	7.90%	7.90%

Period of Actuarial Experience		
Study upon which Actuarial		
Assumptions were Based	July 1, 2008 - June 30, 2011	July 1, 2010 - June 30, 2013

For PERS, mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

Note 8: PENSION PLANS (CONT'D)**Actuarial Assumptions (Cont'd)**

For PFRS, mortality rates were based on the RP-2000 Combined Healthy Mortality Tables projected one year using Projection Scale AA and one year using Projection Scale BB for male service retirements with adjustments for mortality improvements from the base year based on Projection Scale BB. Mortality rates were based on the RP-2000 Combined Healthy Mortality Tables projected fourteen years using Projection Scale BB for female service retirements and beneficiaries with adjustments for mortality improvements from the base year of 2014 based on Projection Scale BB.

For PERS and PFRS, in accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's and PFRS's target asset allocation as of June 30, 2015 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

Note 8: PENSION PLANS (CONT'D)

Actuarial Assumptions

Discount Rate - The discount rate used to measure the total pension liability at June 30, 2015 was 4.90% for PERS and 5.79% for PFRS. For both PERS and PFRS, the respective single blended discount rates were based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rates assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and for PFRS, the non-employer contributing entity, will be made based on the average of the last five years of contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033 for PERS and through 2045 for PFRS. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033 for PERS and through 2045 for PFRS, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liabilities.

Sensitivity of Township's Proportionate Share of Net Pension Liability to Changes in the Discount Rate

Public Employees' Retirement System (PERS) - The following presents the Township's proportionate share of the net pension liability at June 30, 2015, the plans measurement date, calculated using a discount rate of 4.90%, as well as what the Township's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rates used:

	1% Decrease (3.90%)	Current Discount Rate (4.90%)	1% Increase (5.90%)

Police and Firemen's Retirement System (PFRS) - As previously mentioned PFRS has a special funding situation, where the State of New Jersey pays a portion of the Township's annual required contribution. As such, the net pension liability as of June 30, 2015, the plans measurement date, for the Township and the State of New Jersey, calculated using a discount rate of 5.79%, as well as using a discount rate that is 1% lower or 1% higher than the current rates used is as follows:

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

Plan Description – The Township provides postretirement health care benefits, at its cost, to certain police officers and their spouses or surviving spouses. This entitlement requires that police officers retire from service with the Township, be covered by any collective bargaining agreement between the Township and the Fraternal Order of Police, Local 178, have at least twenty years of service with the Township and have served at least twenty-five years as a police officer in any capacity and in any jurisdiction in which that service is eligible for credit in the Police and Firemen's Pension System (PFRS). The health care benefits will be in a form consistent with that provided to all active members of the Township Police whose service is covered by any collective bargaining agreement between the Township and the Fraternal Order of Police, Local 178. Once Medicare age is attained by either the retired employee or the spouse Medicare is primary and the Township provides supplementary medical insurance. Currently there are seven (7) retirees with an average age of fifty-two (52). Four (4) retirees are receiving employee/spouse coverage. There are seventeen (17) active employees with an average age of thirty-five (35) and average accrued service of nine (9) years.

Funding Policy - The contribution requirements of plan members and the Township are established and may be amended by the Township's governing body and collective bargaining agreement between the Township and the Fraternal Order of Police, Local 178. Plan members receive benefits at no cost to the retiree.

Retirees - The Township presently funds its current retiree postemployment benefit costs on a "pay-as-you-go" basis. The Township's contributions to the plan for the years ended December 31, 2015, 2014, and 2013 were \$177,409.75, \$185,302.58, and \$121,152.39, respectively.

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (CONT'D)**Funding Policy (Cont'd)**

Future Retirees - In accordance with Statement No. 45 of the Governmental Accounting Standards Board, the Township is required to disclose the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty (30) years. The ARC includes the costs of both current and future retirees. The current ARC was determined to be \$454,239.00 at an unfunded discount rate of 5.0%. As stated above, the Township has funded the cost of existing retirees in the amount of \$177,409.75, and has incurred the benefit costs for future eligible employees, but has not yet begun funding this outstanding liability.

Annual OPEB Cost - For year ended December 31, 2015, the Township's annual OPEB cost (expense) of \$454,239.00 for the plan was equal to the ARC plus certain adjustments because the Township's actual contributions in prior years differed from the ARC. The Township's annual required contribution (ARC), the interest on the net OPEB obligation, the adjustment to the ARC, the increase or decrease in the net OPEB obligation, the net OPEB obligation, and the percentage of annual OPEB cost contributed to the plan for year 2015 is as follows:

Funded Status and Funding Progress - The funded status of the plan as of the actuarial valuation dates is as follows:

	<u>2015</u>
Actuarial Accrued Liability (AAL)	\$ 4,641,341
Actuarial Value of Plan Assets	-
	<hr/>

UAAL as a Percentage of Covered Payroll	148.0%

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (CONT'D)**Funded Status and Funding Progress (Cont'd)**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, as shown on the previous page, presents multiyear trend information that shows whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - The projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2015 actuarial valuation, the unit credit actuarial cost method was used. Under this method, an actuarial accrued liability is determined as the actuarial present value of the portion of projected benefits which is allocated to service before the current plan year. In addition, a normal cost is determined as the actuarial present value of the portion of projected benefits which is allocated to service in the current plan year for each active participant under the assumed retirement age. The UAAL is being amortized (straight-line) for thirty (30) years on an open basis. The actuarial assumptions included the following:

- *Mortality.* 1994 sex distinct Group Annuity Mortality Table.
- *Discount Rate.* 5.00%
- *Turnover.* U.S Office of Personnel Management employee group covered by the Federal Employees Retirement System
- *Disability.* No terminations of employment due to disability.
- *Age at Retirement.* No earlier than age 55.
- *Final Average Salary.* Over \$112,000 for retirees at age 55.
- *Spousal Coverage.* Married employees will remain married.
- *Health Care Cost Inflation.* Increase 7.0% annually for Pre-Medicare benefits and 5.0% for Post-Medicare benefits.
- *Administrative Expenses.* Approximately 2% is included in health care costs to administer retiree claims.

Overall, as a result of the three referendums, the Township levies a tax not to exceed six cents per one hundred dollars of equalized valuation. Amounts raised by taxation are assessed, levied and collected in the same manner and at the same time as other taxes. Future increases in the tax rate or to extend the authorization must be authorized by referendum. All revenue received is accounted for in a Trust Fund dedicated by rider (N.J.S.A. 40A:4-39) for the purposed stated. Interest earned on the investment of these funds is credited to the Township of Harrison Open Space, Recreation and Farmland Preservation Trust Funds.

Note 17: CONTINGENCIES

Grantor Agencies - Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Township expects such amount, if any, to be immaterial.

Litigation - The Township is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome, or exposure to the Township, from such litigation is either unknown or potential losses, if any, would not be material to the financial statements.

Note 18: CONCENTRATIONS

The Township depends on financial resources flowing from, or associated with, both the federal government and the State of New Jersey. As a result of this dependency, the Township is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and State laws and federal and State appropriations.

COUNSEL WHEN IT MATTERS.SM

The Bonds are issued in fully registered book-entry-only form without coupons, and are subject to redemption prior to their stated maturity dates on the terms and conditions described therein.

The Bonds are being issued to provide funds which will be used to: (i) permanently finance the costs of various capital improvements by the repayment at maturity of a portion of the principal of certain bond anticipation notes heretofore issued by the Township; and (ii) pay certain costs and expenses incidental to the issuance and delivery of the Bonds.

As the basis for the opinion set forth below, we have examined such matters of law as we have deemed necessary including, inter alia, the Constitution of the State of New Jersey, the Internal Revenue Code of 1986, as amended ("Code"), and the Local Bond Law. We have also examined such documents, certifications and instruments as we have deemed necessary including, without limitation, the Bond Ordinances, the Resolution, the Award Certificate, a certification of officials of the Township having the responsibility for issuing the Bonds given pursuant to the Code ("Non-Arbitrage Certificate") and the other certifications, instruments, documents and opinions listed in the closing agenda prepared in connection with the settlement of the Bonds.

In rendering the following opinion, we have relied upon the authenticity, truthfulness and completeness of all documents, instruments and certifications examined including, without limiting the generality of the foregoing, the Non-Arbitrage Certificate.

Based upon and subject to the foregoing, we are of the following opinion:

1. The Bonds are legal, valid and binding obligations of the Township enforceable in accordance with the terms thereof, except to the extent that enforcement thereof may be limited by bankruptcy, insolvency or other laws or equitable principles affecting the enforcement of creditors' rights generally ("Creditors' Rights Limitations").

2. For the payment of principal of and interest on the Bonds, the Township has the power and is obligated, to the extent payment is not otherwise provided, to levy ad valorem taxes upon all taxable real property within the Township without limitation as to rate or amount, except to the extent that enforcement thereof may be affected by Creditors' Rights Limitations.

3. Interest on the Bonds is not included for federal income tax purposes in the gross income of the owners thereof pursuant to Section 103 of the Code and is not a specific item of tax preference item under Section 57 of the Code for purposes of calculating the alternative minimum tax imposed on individuals and corporations pursuant to Section 55 of the Code.

The adjustment for "adjusted current earnings" set forth in Section 56(g) of the Code is required in determining a corporation's alternative minimum taxable income. Alternative minimum taxable income is increased by seventy-five percent (75%) of the excess, if any, of the "adjusted current earnings" of a corporation over the alternative minimum taxable income (determined without regard to this adjustment or the alternative tax net operating loss deduction).

Interest on tax-exempt obligations, including the Bonds, is not excludable in calculating certain corporation's "adjusted current earnings." Accordingly, a portion of the interest on the Bonds received or accrued by a corporation that owns the Bonds is included in computing such corporation's alternative minimum taxable income for such year.

Section 884 of the Code imposes on certain foreign corporations a branch profits tax equal to thirty percent (30%) of the "dividend equivalent amount" for the taxable year. Interest on the Bonds received or accrued by a foreign corporation subject to the branch profits tax may be included in computing the "dividend equivalent amount" of such corporation.

In addition, passive investment income, including interest on the Bonds, may be subject to federal income taxation under Section 1375 of the Code for any S corporation that has Subchapter C earnings and profits at the close of the taxable year if more than twenty-five percent (25%) of the gross receipts of such S corporation is passive investment income.

In rendering this opinion, we have assumed continuing compliance by the Township that it will comply with the applicable requirements of the Code, including requirements relating to, inter alia, the use and investment of proceeds of the Bonds and rebate to the United States Treasury of specified arbitrage earnings, if any, under Section 148(f) of the Code. Failure of the Township to comply with such covenants could result in the interest on the Bonds being subject to federal income tax from the date of issue. We have not undertaken to monitor compliance with such covenants or to advise any party as to changes in the law after the date hereof that may affect the tax-exempt status of the interest on the Bonds.

Ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers including, without limitation, certain holders of an interest in a financial asset securitization investment trust, property and casualty insurance companies, controlled foreign corporations, individual recipients of Social Security or Railroad Retirement benefits, individuals who otherwise qualify for the earned income credit, and to individuals and families that qualify for a premium assistance credit amount under Section 36B of the Code. The Code denies the earned income credit to an individual who is otherwise eligible if the aggregate amount of disqualified income of the taxpayer for the taxable year exceeds certain limits set forth in Sections 32(i) and (j) of the Code. Interest on the Bonds will constitute disqualified income for this purpose. The Code also provides that the earned income credit is phased out if the modified adjusted gross income of the taxpayer exceeds certain amounts. Interest on the Bonds is included in determining the modified adjusted gross income of the taxpayer. Section 36B of the Code provides that the amount of the premium assistance credit amount is in part determined by household income. Section 36B(d) of the Code provides that household income consists of the modified adjusted gross income of the taxpayer and certain other individuals. Modified adjusted gross income means adjusted gross income increased by certain amounts, including interest received or accrued by the taxpayer which is exempt from tax, such as the interest on the Bonds.

In addition, attention is called to the fact that Section 265(b)(1) of the Code eliminates the interest deduction otherwise allowable with respect to indebtedness deemed incurred by banks, thrift institutions and other financial institutions to purchase or to carry tax-exempt obligations acquired after August 7, 1986 other than "qualified tax-exempt obligations" as defined in Section

265(b)(3) of the Code. The Township has not designated the Bonds as "qualified tax-exempt obligations" for purposes of Section 265(b)(3) of the Code.

Owners of the Bonds should consult their own tax advisers as to the applicability and effect on their federal income taxes of the alternative minimum tax, the branch profits tax and the tax on passive investment income of S corporations, as well as the applicability and effect of any other collateral federal income tax consequences.

4. Interest on the Bonds and any gain from the sale thereof are not included in the gross income of the owners thereof under the New Jersey Gross Income Tax Act, as enacted and construed on the date hereof.

We express no opinion as to any matter not set forth in the numbered paragraphs above including, without limitation, any financial or other information which has been or may be supplied to purchasers of the Bonds.

The opinions expressed in the numbered paragraphs above are being rendered on the basis of federal law and the laws of the State of New Jersey, as presently enacted and construed, and we assume no responsibility to advise any party as to any changes in law or fact subsequent to the date hereof.

This is only an opinion letter and not a warranty or guaranty of the matters discussed above.

This letter is being provided solely for the benefit of the Township and may not be relied upon by any other person, party, firm or organization without our prior written consent.

Very truly yours,

As the basis for the opinion set forth below, we have examined such matters of law as we have deemed necessary including, *inter alia*, the Constitution of the State of New Jersey, the Internal Revenue Code of 1986, as amended ("Code"), and the Local Bond Law. We have also examined such documents, certifications and instruments as we have deemed necessary including, without limitation, the Bond Ordinances, the Award Certificate, the representations and covenants of the Township given pursuant to the Code as set forth in the Certificate as to Nonarbitrage and other Tax Matters ("Nonarbitrage Certificate"), and the other certifications, opinions and instruments listed in the closing agenda prepared in connection with the settlement for the Notes.

COUNSEL WHEN IT MATTERS.SM

In rendering the following opinion, we have relied upon the authenticity, truthfulness and completeness of all documents, certifications, instruments and opinions examined including, without limiting the generality of the foregoing, the Nonarbitrage Certificate.

Based upon and subject to the foregoing, we are of the following opinion:

1. The Notes are legal, valid and binding obligations of the Township enforceable in accordance with the terms thereof, except to the extent that enforcement thereof may be limited by bankruptcy, insolvency, moratorium or other laws or equitable principles affecting the enforcement of creditors' rights generally ("Creditors' Rights Limitations").
