

PRELIMINARY OFFICIAL STATEMENT DATED MAY 10, 2022

In the opinion of Parker McCay P.A., Mount Laurel, New Jersey, Bond Counsel to the County (as hereinafter defined), assuming continuing compliance by the County, RCSJ and GCIT (each hereinafter defined) with certain tax covenants described herein, under existing law, interest on the Bonds (as hereinafter defined) is not included for federal income tax purposes in the gross income of the owners thereof pursuant to Section 103 of the Internal Revenue Code of 1986, as amended ("Code"), and will not constitute a specific item of tax preference under Section 57 of the Code for purposes of calculating the alternative minimum tax imposed on individuals and corporations pursuant to Section 55 of the Code. In addition, interest on the Bonds may be subject to the branch profits tax imposed on certain foreign corporations and to the tax on "excess net passive income" imposed on S corporations. Interest on the Bonds and any gain from the sale thereof is not included in the gross income of the owners thereof under the New Jersey Gross Income Tax Act, as presently enacted and construed. See "TAX MATTERS" herein.

The County of Gloucester, New Jersey ("County") is issuing \$17,647,000* aggregate principal amount of its General Obligation Bonds, Series 2022 ("Bonds"). The Bonds consist of: (i) \$4,225,000* aggregate principal amount of General Improvement Bonds; (ii) \$5,172,000* aggregate principal amount of County College Bonds (Chapter 12) ("Chapter 12 Bonds"); and (iii) \$8,250,000* aggregate principal amount of County College Bonds (Building Our Future Bond Act). The Bonds shall be issued in fully registered book-entry only form without coupons. The principal of the Bonds shall be paid on the respective maturity dates thereof upon presentation and surrender of the Bonds in the offices of the County Treasurer or its designated paying agent, if any. Interest on the Bonds is payable initially on March 1, 2023 and semiannually thereafter on September 1 and March 1 ("Interest Payment Dates") in each year until maturity or earlier redemption. The Bonds are subject to redemption prior to the stated maturity dates thereof.

Upon initial issuance, the Bonds will be registered in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), which will act as securities depository for the Bonds. So long as Cede & Co. is the registered owner of the Bonds, payments of principal of and interest on the Bonds will be made by the County or its designated paying agent, if any, directly to DTC or its nominee, Cede & Co., which will remit such payments to the DTC Participants (as herein defined) which will, in turn, remit such payments to the Beneficial Owners (as herein defined) of the Bonds. Purchasers will not receive certificates representing their ownership interest in the Bonds purchased. For so long as any purchaser is a Beneficial Owner of a Bond, such purchaser must maintain an account with a broker or dealer who is, or acts through, a DTC participant to receive payment of the principal of and interest on such Bond.

The Bonds are authorized to be issued pursuant to: (i) the Local Bond Law, Chapter 169 of the Laws of 1960 of the State of New Jersey, as amended and supplemented ("Local Bond Law"); (ii) bond ordinances 53701 and 53768 (collectively, the "Bond Ordinances"), each duly and finally adopted by the Board of County Commissioners ("Board") and published in accordance with the requirements of the Local Bond Law; (iii) the Resolution adopted by the Board on April 6, 2022; and (iv) a Certificate of Determination and Award executed by the County Treasurer/Chief Financial Officer on May __, 2022.

The Bonds are being issued by the County to provide funds which will be used to: (i) permanently finance the costs of certain general capital improvements and equipment for which obligations have been authorized, but not issued; (ii) permanently finance the costs of certain capital improvements for Rowan College of South Jersey ("RCSJ"), for which obligations have been authorized, but not issued; (iii) permanently finance the costs of certain capital improvements for the Gloucester County Institute of Technology ("GCIT") and RCSJ as a part of the Building Our Future Bond Act Program, for which obligations have been authorized, but not issued; and (iv) pay certain costs and expenses incidental to the issuance and delivery of the Bonds.

The full faith and credit of the County are irrevocably pledged for the payment of the principal of and interest on the Bonds. The Bonds are general obligations of the County payable as to principal and interest from *ad valorem* taxes to be levied upon all taxable real property in the County without limitation as to rate or amount.

The Chapter 12 Bonds are also entitled to the benefits of the County College Bond Act, constituting Chapter 12 of 1971 Laws of the State of New Jersey ("State") (*N.J.S.A. 18A:64A-22 et seq.*), as amended, which provides that an amount equal to one-half of the principal of and interest on the Chapter 12 Bonds will be paid by the State. However, bonds issued under the provisions of the County College Bond Act shall not be deemed to constitute a debt or liability of the State or a pledge of the faith and credit of the State, but are dependent for repayment upon appropriations provided by law from time to time.

This cover contains certain information for quick reference only. It is not a summary of this issue. Investors must read the entire Official Statement, including the Appendices attached hereto, to obtain information essential to their making an informed investment decision.

DESCRIPTION OF THE BONDS

General

The Bonds will be issued in the aggregate principal amounts and mature on the dates as shown on the inside front cover hereof. The Bonds will be dated the date of delivery thereof and bear interest from that date at the interest rates set forth on the inside front cover hereof. Interest on the Bonds will be payable semiannually commencing on March 1, 2023 and, thereafter, on September 1 and March 1 in each year until maturity or earlier redemption (each an "Interest Payment Date"). Individual purchases may be made in the principal amount of \$5,000, or any

integral multiple of \$5,000, and in integral multiples of \$1,000 in excess thereof, or in such amount necessary to issue the principal amount of the Bonds, through book-entries made on the books and the records of DTC (as hereinafter defined) and its participants. See "DESCRIPTION OF THE BONDS--Book-Entry-Only System" below. The Bonds will mature on March 1 in the years and in the principal amounts, all as shown on the inside front cover page of this Official Statement.

The Bonds will be issued in fully registered form without coupons. The principal of the Bonds will be payable to the registered owners at maturity upon presentation and surrender of the Bonds at the offices of the County Treasurer/Chief Financial Officer or its designated paying agent, if any. Interest on each Bond shall be payable on each Interest Payment Date of such Bond to the registered owner of record thereof appearing on the registration books kept by the County for such purpose at the offices of the County Treasurer/Chief Financial Officer or its designated paying agent, if any, as of the close of business on the fifteenth (15th) day of the calendar month next preceding an Interest Payment Date.

So long as The Depository Trust Company, New York, New York ("DTC") or its nominee, Cede & Co., is the registered owner of the Bonds, payments of the principal of and interest on the Bonds will be made directly to Cede & Co., as nominee of DTC. Disbursements of such payments to the participants of DTC ("DTC Participants") is the responsibility of DTC and disbursements of such payments to the Beneficial Owners (as hereinafter defined) of the Bonds is the responsibility of the DTC Participants and not the County or its designated paying agent, if any.

Redemption Provisions

The Bonds maturing prior to March 1, 2033 are not subject to redemption prior to their stated maturities. The Bonds maturing on or after March 1, 2033 are redeemable at the option of the County, in whole or in part, on any date on or after March 1, 2032 at 100% of the principal amount outstanding (the "Redemption Price") plus interest accrued to the date of redemption upon notice as required herein.

Notice of redemption shall be given by mailing by first class mail in a sealed envelope with postage prepaid to the registered owners of the Bonds not less than 30 days nor more than 60 days prior to the date fixed for redemption. Such mailing shall be to the owners of such Bonds at their respective addresses as they last appear on the registration books kept for that purpose by the County or a duly appointed bond registrar. Any failure of the securities depository to advise any of its Participants or any failure of any Participant to notify any Beneficial Owner of any notice of redemption shall not affect the validity of the redemption proceedings. If the County determines to redeem a portion of the Bonds prior to maturity, the Bonds to be redeemed shall be selected by the County. The Bonds to be redeemed having the same maturity shall be selected by the securities depository in accordance with its regulations.

So long as Cede & Co., as nominee for DTC, is the registered owner of the Bonds, the County shall send redemption notices only to Cede & Co.

If notice of redemption has been given as provided herein, the Bonds or the portion thereof called for redemption shall be due and payable on the date fixed for redemption at the Redemption Price, together with unpaid accrued interest to the date fixed for redemption. Interest shall cease to

accrue on the Bonds after the date fixed for redemption. Payment shall be made upon surrender of the Bonds redeemed.

Book-Entry-Only System

The description which follows of the procedures and record keeping with respect to beneficial ownership interests in the Bonds, payment of principal and interest, and other payments on the Bonds to DTC Participants or Beneficial Owners, confirmation and transfer of beneficial ownership interests in the Bonds and other related transactions by and between DTC, DTC Participants and Beneficial Owners, is based on certain information furnished by DTC to the County. Accordingly, the County does not make any representations as to the completeness or accuracy of such information.

The DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their

holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the County or its hereafter designated Paying Agent, if any, as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds and distributions on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the County or its hereafter designated Paying Agent, if any, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Paying Agent, if any, or the County, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds and distributions to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the County or its hereafter designated Paying Agent, if any, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the County or its hereafter designated Paying Agent, if any. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The County may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the County believes to be reliable, but neither the County nor the Underwriters (as hereinafter defined) take any responsibility for the accuracy thereof.

NEITHER THE COUNTY NOR ITS HEREAFTER DESIGNATED PAYING AGENT, IF ANY, WILL HAVE THE RESPONSIBILITY OR OBLIGATION TO THE DTC PARTICIPANTS OR THE PERSONS FOR WHOM THEY ACT AS NOMINEES WITH RESPECT TO THE PAYMENTS TO OR PROVIDING OF NOTICE FOR THE DTC PARTICIPANTS, OR THE INDIRECT PARTICIPANTS OR THE BENEFICIAL OWNERS.

SO LONG AS CEDE & CO. IS THE REGISTERED OWNER OF THE BONDS, AS NOMINEE OF DTC, REFERENCES HEREIN TO THE BONDHOLDERS OR REGISTERED OWNERS OF THE BONDS (OTHER THAN UNDER THE HEADING "TAX MATTERS") SHALL MEAN CEDE & CO. AND SHALL NOT MEAN THE BENEFICIAL OWNERS OF THE BONDS.

Discontinuance of Book-Entry-Only System

In the event that the book-entry-only system is discontinued and the Beneficial Owners become registered owners of the Bonds, the following provisions would apply: (i) the Bonds may be exchanged for an equal aggregate principal amount of Bonds in other authorized denominations and of the same maturity, upon surrender thereof at the offices of the County or its designated paying agent; (ii) the transfer of any Bonds may be registered on the books maintained by the County or its designated paying agent for such purpose only upon the surrender thereof to the County or its designated paying agent together with the duly executed assignment in form satisfactory to the County or its designated paying agent; and (iii) for every exchange or registration of transfer of Bonds, the County, or its designated paying agent, may make a charge sufficient to reimburse for any tax or other governmental charge required to be paid with respect to such exchange or registration of transfer of the Bonds. Interest on the Bonds will be payable by check or draft, mailed on each Interest Payment Date to the registered owners thereof as of the close of business on the fifteenth (15th) day, whether or not a business day, of the calendar month next preceding an Interest Payment Date.

SECURITY FOR THE BONDS

The full faith and credit of the County are irrevocably pledged for the payment of the principal of and interest on the Bonds. The Bonds will be legal, valid and binding general

obligations of the County payable as to principal and interest from *ad valorem* taxes to be levied upon all the taxable real property within the County without limitation as to rate or amount.

The County may pledge only its own credit and taxing power in respect of the Bonds, and has no power to pledge the credit or taxing power of the State of New Jersey ("State") or any other political subdivision thereof, nor shall the Bonds be deemed to be obligations of said State or any other political subdivision thereof, nor shall said State or any other political subdivision thereof be liable for the payment of principal of or interest on the Bonds.

In addition to the foregoing, the Chapter 12 Bonds are entitled to the benefits of the provisions of the County College Bond Act, P.L. 1971, c. 12 (*N.J.S.A. 18A:64A-22 et seq.*), as amended ("College Bond Act"), pursuant to which the State shall annually appropriate in its budget and pay on behalf of the County an amount equal to one-half the amount of principal of and interest due on the Chapter 12 Bonds. The amounts paid by the State pursuant to the College Bond Act are paid directly to the securities depository to be used for the payment of the principal of and interest on the Chapter 12 Bonds. The Chapter 12 Bonds are not a debt or liability of the State. Payment by the State pursuant to the College Bond Act is dependent upon appropriations provided by law from time to time.

INFORMATION REGARDING THE COUNTY OF GLOUCESTER

General

General information concerning the County, including statistical, demographic and other relevant data, is set forth in Appendix "A" to this Official Statement.

Financial

The audited financial statements of the County, prepared by Petroni & Associates, LLC, for the years ended December 31, 2020 and 2019, are set forth in Appendix "B" to this Official Statement. Also included in Appendix "B" is an unaudited compilation report for the year ended December 31, 2021, as prepared by Bowman & Company LLP, independent auditor of the County, Woodbury and Voorhees, New Jersey.

CERTAIN PROVISIONS OF THE LAWS OF THE STATE OF NEW JERSEY AND THE UNITED STATES RELATING TO GENERAL OBLIGATION DEBT

Local Bond Law

General - The Local Bond Law governs the issuance of bonds and notes by counties and municipalities for the financing of capital improvements. Among its provisions are the following: (i) the power and obligation to pay any and all bonds and notes issued pursuant to the Local Bond Law shall be unlimited; (ii) the county or municipality shall levy ad valorem taxes upon all taxable property therein for the payment of the principal of and interest on such bonds and notes without limitation as to rate or amount; (iii) generally, a down payment that is not less than five percent (5%) of the amount of debt obligations authorized must be appropriated in

addition to the amount of debt obligations authorized; (iv) all non-special-assessment bonds shall mature within the period of usefulness or average period of usefulness of the improvements being financed; and (v) after issuance, all bonds and notes shall be conclusively presumed to be fully authorized and issued by all of the laws of the State, and all persons shall be estopped from questioning their sale, execution or delivery.

Debt Limits - The authorized bonded indebtedness of the County is limited by statute, subject to the exceptions noted below, to an amount equal to two percent (2.00%) of its equalized valuation basis. The equalized valuation basis of the County is set by statute as the average for the last three years of the equalized value of all taxable real property and improvements as annually determined by the New Jersey State Board of Taxation. Certain categories of debt are permitted by statute to be deducted for purposes of computing the statutory debt limit.

Bonds, notes and long-term loans are included in the computation of debt for the statutory debt limit. The County, including the issuance of the Bonds, will not exceed its two percent (2.00%) debt limit.

Exceptions to Debt Limits – Extensions of Credit - The County may exceed its debt limit with the approval of the Local Finance Board, a State regulatory agency, and as permitted by other statutory exceptions. If all or any part of a proposed debt authorization would exceed its debt limit, the County may apply to the Local Finance Board for an extension of credit. If the Local Finance Board determines that a proposed debt authorization would not materially impair the credit of the County or substantially reduce the ability of the County to meet its obligations or to provide essential public improvements and services, or make certain other statutory determinations, approval may be granted.

In addition, debt in excess of the statutory limit may be issued by the County to fund certain notes, to provide for purposes in an amount not exceeding two-thirds (2/3) of the amount budgeted in such fiscal year for the retirement of outstanding obligations (exclusive of utility and assessment obligations).

Short-Term Financing – When approved by bond ordinance, the County may issue bond anticipation notes to temporarily finance capital improvements. Such notes may not be issued in an aggregate amount exceeding that specified by the ordinance. The notes may not be issued for periods of more than one year, renewable with the final maturity occurring no later than the first day of the fifth month following the close of the tenth fiscal year next following the date of the original note. After the third year, the amount of the notes that may be renewed annually must be decreased by the minimum amount required for the first year's principal payment for the bond issue in anticipation of which the notes are issued.

Bonds – Bonds may be issued pursuant to the Local Bond Law for the purpose of paying, funding outstanding bonds, including emergency appropriations, the actuarial liabilities of a non-state administered public employee pension system and amounts owing to others for taxes levied in the local unit, or any renewals or extensions thereof, and for paying the cost of issuance of bonds.

Local Fiscal Affairs Law

The Local Fiscal Affairs Law, Chapter 5 of Title 40A of the New Jersey State Statutes, as amended and supplemented ("Local Fiscal Affairs Law"), governs audits, auditors, public moneys and financial statements of local governmental units, including the County.

Each local unit is required to cause an annual audit of its books, accounts and financial transactions to be made and completed within six months after the close of its fiscal year by either a Registered Municipal Accountant or, by agreement with the Director ("Director") of the Division of Local Government Services ("Division") in the Department of Community Affairs, by qualified employees of the Division.

An independent examination of the County's books, accounts and financial transactions must be performed annually by a Registered Municipal Accountant who is licensed by the State Board of Public Accountants. The audit, conforming to the Division's "Requirements of Audit", includes recommendations for improvement of the local unit's financial procedures and must be filed with the report, together with all recommendations made. A Summary of Audit, together with recommendations, must be published in a local newspaper within 30 days of its submission. The entire annual audit report for the year ended December 31, 2020 is on file with the Clerk of the Board of County Commissioners and is available for review during business hours.

The Local Fiscal Affairs Law also requires that the chief financial officer/treasurer of the local unit file annually with the Director a verified statement of the financial condition of the local unit as of the close of the fiscal year to be made not later than February 10 for December 31 fiscal year end local units and August 10 for June 30 fiscal year end local units. The Annual Compiled Financial Statement for the year ended December 31, 2021 is on file with the Clerk of the Board of County Commissioners.

Local Budget Law

The Local Budget Law, Chapter 4 of Title 40A of the State states, as amended and supplemented ("Local Budget Law"), governs the budgeting and appropriation of funds by local governmental units.

The Local Budget Law requires local governmental units to adopt a "cash basis" budget in such form that there will be sufficient cash collected to meet all debt service requirements, necessary operations of the local governmental units for the fiscal year and any mandatory payments required to be met during the fiscal year.

No budget shall be adopted unless the Director shall have previously certified their approval thereof.

Each local governmental unit must include in its budget an appropriation for the payment of debt service. The Director is required to examine such appropriation to determine whether it is properly set forth, in addition to determining whether all estimates of revenue contained in the budget are reasonable, accurate and correctly stated.

A statute passed in 1976, as amended (N.J.S.A. 40A:4-45.1 et seq.), commonly known as the "Cap Law", imposed limitations on increases in municipal appropriations subject to various exceptions. On August 20, 1990, the Governor signed into law P.L. 1990, c. 89, which revised and made permanent the "Cap Law". Since its inception, the "Cap Law" has been amended and modified several times, most recently on July 13, 2010. While the revised "Cap Law" is more restrictive on the ability of a local unit to increase its overall appropriations, it does not limit the obligation of the County to levy ad valorem taxes upon all taxable real property within the County to pay debt service on the Bonds. The Cap Law provides that a local unit shall limit any increase of its budget to 2.5% or the index rate, whichever is less, over the previous year's final appropriations subject to certain exceptions. The "index rate" is the rate of annual percentage increase in the Implicit Price Deflator for State and Local Government Purchases of Goods and Services computed by the United States, Department of Commerce. Among the exceptions to the limitations imposed by the Cap Law are capital expenditures; debt service; extraordinary expenses approved by the Local Finance Board for implementation of an interlocal services agreement; expenditures mandated as a result of certain emergencies; and certain expenditures for services mandated by law.

Additionally, legislation constituting P.L. 2010, c. 44, was adopted on July 13, 2010 (S-29R1), which, among other things, imposes a two percent (2%) cap on the tax levy that municipalities, counties, fire districts and solid waste collection districts may impose, with very limited exceptions and subject to certain adjustments.

Exclusions from the two percent (2%) tax levy cap include: (i) increases required to be raised by taxation for capital expenditures, including debt service as defined by law; (ii) increases in pension contributions and accrued liability for pension contributions in excess of 2.0%; (iii) increases in health care costs equal to that portion of the actual increase in total health care costs for the budget year that is in excess of 2.0% of the total health care costs in the prior year, but is not in excess of the product of the total health care costs in the prior year and the average percentage increase of the State Health Benefits Program, P.L.1961, c.49 (C.52:14-17.25 et seq.), as annually determined by the Division of Pensions and Benefits in the Department of the Treasury; and (iv) and extraordinary costs incurred by a local unit directly related to a declared emergency, as defined by regulation promulgated by the Commissioner of the Department of Community Affairs, in consultation with the Commissioner of Education, as appropriate. The amendments to the tax levy sections of the "Cap Law" (specifically, N.J.S.A. 40A:4-45-46) in 2010 no longer permit municipalities, counties, fire districts and solid waste collection districts to request approval from the Local Finance Board for a waiver to increase the amount to be raised by taxation in excess of the two percent (2%) cap. However, counties, municipalities, fire districts and solid waste collection districts may request, through a public question submitted to the voters, an increase in the amount to be raised by taxes above the two percent (2%) tax levy cap. Such approval must be achieved by an affirmative vote in excess of fifty percent (50%) of those voting on such public question.

In response to the outbreak of the Coronavirus (as defined and described under the heading "CERTAIN RISK FACTORS – Recent Healthcare Developments" below), the New Jersey Legislature enacted P.L. 2020, c. 74 (A3971), under which a local unit may adopt an emergency appropriation to fund certain deficits and expenditures resulting from Coronavirus with approval of the Director and may either fund it as a deferred charge or issue special emergency notes to fund it payable by 1/5 each year beginning in the year after the year in which

the deferred charge appears in the financial statements so it is paid off no later than the last day of the sixth fiscal year following the end of the fiscal year in which the application is made. If there is a showing of fiscal distress, that may be extended to ten (10) years. Such emergency appropriation must be approved by 2/3 vote of the governing body of the local unit and be accompanied by a certification of the Chief Financial Officer stating that the resolution covers deficits and expenses incurred during the emergency response to the Coronavirus. Moreover, to the extent that such Coronavirus-related emergency appropriations exceed the cost of providing similar services under non-emergency conditions, the deferred charge to be raised in the following year's budget is an eligible exception to both the levy cap and the appropriations cap. The Director may also promulgate guidelines modifying the standard for anticipated revenues when the amount realized in cash from the same source during the next preceding fiscal year experienced reductions due to Coronavirus. The County has made no appropriations for Coronavirus related deficits or expenditures.

Neither the tax levy limitation nor the "Cap Law" limits the obligation of the County to levy ad valorem taxes upon all taxable real property within the County to pay debt service on its bonds or notes, including the Bonds.

Miscellaneous Revenues

N.J.S.A. 40A:4-26 provides that: "No miscellaneous revenues from any source shall be included as an anticipated revenue in the budget in an amount in excess of the amount actually realized in cash from the same source during the next preceding fiscal year, unless the [D]irector shall determine upon application by the governing body that the facts clearly warrant the expectation that such excess amount will actually be realized in cash during the fiscal year and shall certify such determination, in writing, to the local unit." Such determination may be made by the governing body and the chief financial officer in any year during which the local unit is subject to local examination.

No budget or amendment shall be adopted unless the Director has previously certified the approval of such anticipated revenues.

Real Estate Taxes

The same general principal that revenue cannot be anticipated in a budget in excess of that realized in the preceding year applies to property taxes. *N.J.S.A.* 40A:4-29 delineates anticipation of delinquent tax collections: "The maximum which may be anticipated is the sum produced by the multiplication of the amount of delinquent taxes unpaid and owing to the local unit on the first day of the current fiscal year by the percentage of collection of delinquent taxes for the year immediately preceding the current fiscal year".

Section 41 of the Local Budget Law provides with regard to the current taxes that: "Receipts from the collection of taxes levied or to be levied in the municipality, or in the case of a county for general county purposes and payable in the fiscal year, shall be anticipated in an amount which is not in excess of the percentage of taxes levied and payable during the next preceding fiscal year which was received in cash by December 31, of such preceding fiscal year".

Section 40 of the Local Budget Law requires that an additional amount ("Reserve For Uncollected Taxes") be added to the tax levy required to balance the budget so that when the

percentage of the prior year's tax collection is applied to the combined total, the product will be at least equal to the tax levy required to balance the budget.

Deferral of Current Expenses

Emergency appropriations (i.e., those made after the adoption of the budget and determination of the tax rate for an unforeseen event or purpose) may be authorized by the governing body of the local governmental units. With minor exceptions, however, such appropriations must be included in full in the following year's budget. When such appropriations exceed three percent (3%) of the adopted operating budget, consent of the Director of Local Government Services must be obtained.

The exceptions are certain enumerated projects to cover the cost of the extraordinary expense for the repair, or reconstruction of streets, roads or bridges, or other public property damaged by snow, ice, frost or flood, where such expense was not foreseen at the time of the adoption of the budget, which may be amortized over three years; and tax map preparations, revision of ordinances, revaluations, master plan preparation, studies and planning necessary for the installation and construction of a sanitary sewer system, and payments of accumulated sick and vacation time which may be amortized over five years.

Budget Transfers

Budget transfers provide a degree of flexibility and afford a control mechanism. Transfers between major appropriation accounts are prohibited until the last two months of the year and, although subaccounts within an appropriation are not subject to the same year-end transfer restriction, they are subject to internal review and approval.

Capital Budget

In accordance with the Local Budget Law, each local unit shall prepare and adopt a capital budget, in conjunction with its annual operating budget, for any year in which it proposes to undertake a capital project. Every local unit which adopts a capital budget must also adopt a three (3) year capital program unless the local unit's population exceeds 10,000 where a six (6) year capital program is required.

Related Constitutional and Statutory Provisions

In the general election of January 2, 1976, as amended by the general election of January 6, 1984, the following Article 8, Section 1, Paragraph 7, with respect to a state income tax, was added to the State Constitution:

No tax shall be levied on personal incomes of individuals, estates and trusts of this State unless the entire net receipts therefrom shall be received into the treasury, placed in a perpetual fund and be annually appropriated, pursuant to formulas established from time to time by the Legislature, to the several counties, municipalities and school districts of this State exclusively for the purpose of reducing or offsetting property taxes. In no event, however, shall a tax so levied on personal income be levied on payments received under the Federal Social Security Act, the Federal Railroad Retirement Act, or any federal law which substantially reenacts the provisions of either of those laws.

A progressive state income tax is currently in effect in the State.

The State Constitution may only be amended after: (i) approval of a proposed amendment by three-fifths (3/5) of all of the members of each house of the State Legislature and approval by a majority vote in a statewide referendum; or (ii) approval in two successive legislative years by a majority of all of the members of each house and approval by a majority vote in a statewide referendum. Amendments failing to receive voter approval may not be resubmitted for voter approval before the third succeeding general election after such disaffirmance.

Rights and Remedies of Owners of Bonds

The State Municipal Finance Commission Act, Chapter 27 of Title 52 of the State Statutes, as amended and supplemented ("Act"), provides that when it has been established, by court proceedings, that a local unit has defaulted for over sixty days in the payment of the principal of or interest on any of its outstanding bonds or notes, the Local Finance Board of the State Department of Community Affairs (which, pursuant to the Act, is constituted the Municipal Finance Commission and shall hereinafter be referred to as the "Commission") shall take control of the fiscal affairs of the defaulting local unit.

The Act provides that the Commission shall remain in control of the local unit until all bonds or notes of the local unit that have fallen due and all bonds or notes that will fall due within one year, and the interest thereon, have been paid, funded or refunded, or the payment thereof in cash shall have been adequately provided for by a cash reserve.

The Act empowers the Commission to direct the local unit to provide for the funding or refunding of notes or bonds of the local unit and the interest thereon, which the Commission shall have found to be outstanding and unpaid and to be due or become due. The Act further authorizes the Commission to bring and maintain an appropriate proceeding for the assessment, levy or collection of taxes by the local unit for the payment of principal or of interest on such indebtedness.

Under Article 6 of the Act, while the Commission functions in the local unit, no judgment, levy, or execution against the local unit or its property for the recovery of the amount due on any bonds, notes or other obligations of the local unit in the payment of which it has defaulted, shall be enforced unless otherwise directed by Court Order. However, Article 6 of the Act also provides that upon application of any creditor made upon notice to the local unit and the Commission, a court may vacate, modify or restrict any such statutory stay contained therein.

Limitation of Remedies Under Federal Bankruptcy Code

The rights and remedies of the registered owners of the Bonds are subject to the provisions of Chapter 9 of the Federal Bankruptcy Code of the United States ("Bankruptcy Code"). In general, Chapter 9 permits, under prescribed circumstances, but only after an authorization by the applicable state legislature or by a governmental officer or organization empowered by state law to give such authorization, a political subdivision of a state to file a petition for relief in a bankruptcy court of the United States if it is insolvent or unable to meet its debts as they mature and desires to effect a plan to adjust its debts.

The State has authorized the political subdivisions thereof to file such petitions for relief under the Bankruptcy Code pursuant to and subject to Article 8 of the Act. The Act provides that such petitions may not be filed without the prior approval of the Commission and that no plan of readjustment of the local unit's debts may be filed or accepted by the petitioner without express authority from the Commission to do so.

THE ABOVE REFERENCES TO THE BANKRUPTCY CODE ARE NOT TO BE CONSTRUED AS AN INDICATION THAT THE COUNTY EXPECTS TO RESORT TO THE PROVISIONS OF SUCH BANKRUPTCY CODE OR THAT, IF IT DID, SUCH ACTION WOULD BE APPROVED BY THE COMMISSION, OR THAT ANY PROPOSED PLAN WOULD INCLUDE A DILUTION OF THE SOURCE OF PAYMENT OF AND SECURITY OF THE BONDS.

THE SUMMARIES OF AND REFERENCES TO THE STATE CONSTITUTION AND OTHER STATUTORY PROVISIONS ABOVE ARE NOT AND SHOULD NOT BE CONSTRUED AS COMPREHENSIVE OR DEFINITIVE. ALL REFERENCES TO SUCH DOCUMENTS ARE QUALIFIED IN THEIR ENTIRETY BY REFERENCE TO THE PARTICULAR DOCUMENT, THE FULL TEXT OF WHICH MAY CONTAIN QUALIFICATIONS OF AND EXCEPTIONS TO STATEMENTS MADE HEREIN.

LEGAL MATTERS

The legality of the Bonds will be subject to the approving legal opinion of Parker McCay, P.A., Mount Laurel, New Jersey, Bond Counsel to the County ("Bond Counsel"). Such opinion will be printed on or accompany the Bonds and provide, *inter alia*, that the Bonds are valid and binding obligations of the County, and the County has the power and is obligated to levy ad valorem taxes upon all the taxable property within the County without limitation as to rate or amount for the payment of the Bonds and interest thereon. The enforceability of rights or remedies with respect to such Bonds may be limited by bankruptcy, insolvency, or other law affecting creditors' rights or remedies heretofore or hereinafter enacted. Certain legal matters will be passed upon for the County by Eric M. Campo, Esquire, Woodbury, New Jersey, County Counsel.

Bond Counsel has not verified the accuracy, completeness or fairness of the statements contained in this Official Statement (except to the extent, if any, as specifically stated herein) and will express no opinion relating thereto.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgement of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of that expression of professional judgment, of the transaction opined upon, or the future performance of parties to the transaction. Nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

CERTAIN RISK FACTORS

Recent Healthcare Developments

The outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus ("Coronavirus" or "COVID-19"), which was first detected in China and has spread to other countries, including the United States, has been declared a pandemic by the World Health Organization, a national emergency by the President of the United States ("President") and a state of emergency by the Governor of the State ("Governor").

In response, the President declared a national emergency on March 13, 2020. Additionally, on March 9, 2020, the Governor issued Executive Order 103, pursuant which the Governor declared a State of Emergency and a Public Health Emergency, thereby allowing State agencies and departments to utilize State resources to assist affected communities in response to the COVID-19 outbreak. Other Executive Orders (some of which have since been modified or rescinded), limited various activities and undertook measures in an attempt to slow the spread of COVID-19 throughout the State. Quarantine and other "social distancing" measures undertaken by government agencies, businesses, schools and other entities in response to the COVID-19 outbreak altered behavior and have affected commerce in a manner that has negatively affected global, national and local economies.

Notwithstanding the disruptions that have resulted from COVID-19, the State and the County have recently seen a reduction in reported cases of COVID-19, and a corresponding reduction in hospitalization rates and fatalities. As a result, on June 4, 2021, the Governor signed legislation formally ending the Public Health Emergency declaration, while retaining certain limited Executive Orders related to public health and safety until January 1, 2022. The previous declaration of the State of Emergency, however, remains in effect as of the date hereof.

In an effort to provide relief to entities impacted by the COVID-19 pandemic, the American Rescue Plan Act of 2021, H.R. 1319 ("Plan") was signed into law by President Biden on March 12, 2021 and provides \$1.9 trillion in financial assistance to businesses, individuals and governmental entities. In particular, the Plan includes various forms of financial relief, including up to a \$1,400 increase in direct stimulus payments to individuals and various other forms of economic relief, including extended unemployment benefits, continued eviction and foreclosure moratoriums, an increase in the child tax credit, an increase in food and housing aid, assistance grants to restaurants and bars, and other small business grants and loans. The Plan also provides funding for state and local governments to recoup and offset costs related to COVID-19 and to encourage and re-establish economic development and certain infrastructure improvements.

Based on available information as of January 31, 2022, the County is expected to receive approximately \$56,646,874 from the Plan. Such funds are expected to be received in two equal payments, the first of which was received by the County in May of 2021 in the amount of \$28,323,437. The County expects to receive another \$28,323,437 no earlier than 12 months from the initial payment. The deadline to obligate the funds is December 31, 2024 and to spend funds is December 31, 2026. Generally, according to the Plan, the allowable use of the funds to be provided to the County include the following categories: (a) to respond to the public health emergency with respect to COVID-19 or its negative economic impacts, including assistance to

households, small businesses and nonprofits, or aid to impacted industries such as tourism, travel and hospitality; (b) to respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to eligible workers of the County that are performing such essential work, or by providing grants to eligible employers that have eligible workers who perform essential work; (c) for the provision of government services to the extent of the reduction in revenue due to the public health emergency relative to revenues collected in the most recent full fiscal year of the County prior to the emergency; and (d) to make necessary investments in water, sewer or broadband infrastructure. As of the date hereof, the County anticipates utilizing monies received under the Plan as an offset against certain lost revenues and to fund various projects and permitted purposes in accordance with the requirements of the Plan.

While the effects of COVID-19 have been reduced in the State, the County cannot predict, and does not predict, the duration, severity or ultimate impact of COVID-19 upon global, State-wide and local economies and operations, including that of the County.

Moreover, the County has provided and intends to continue to provide essential services in and for the County including, but limited to, emergency services, core health and human services, and public works, together with certain other vital services the County deems necessary to remain operational and responsive to public needs.

Cyber Security

The County relies on a complex technology environment to conduct its various operations. As a result, the County faces certain cyber security threats at various times including, but not limited to, hacking, phishing, viruses, malware and other attacks on its computing and digital networks and systems. To mitigate the risks of business operations impact and/or damage from cybersecurity incidents or cyber-attacks, the County has invested in multiple forms of cybersecurity and operational safeguards. In addition, the County maintains certain insurance coverage for cyberattacks and related events.

TAX MATTERS

Federal

In the opinion of Parker McCay P.A., Mount Laurel, New Jersey, Bond Counsel to the County, assuming continuing compliance by that each of the County, RCSJ and GCIT will comply with the tax covenants described below, under existing law, interest on the Bonds is not included for federal income tax purposes in the gross income of the owners thereof pursuant to Section 103 of the Internal Revenue Code of 1986, as amended ("Code"), and will not constitute a specific item of tax preference under Section 57 of the Code for purposes of calculating the alternative minimum tax imposed on individuals and corporations pursuant to Section 55 of the Code.

The adjustment for "adjusted current earnings" set forth in Section 56(g) of the Code is required in determining a corporation's alternative minimum taxable income. Alternative minimum taxable income is increased by seventy-five percent (75%) of the excess, if any, of the "adjusted current earnings" of a corporation over the alternative minimum taxable income (determined without regard to this adjustment or the alternative tax net operating loss deduction).

Interest on the Bonds is included in computing a corporation's "adjusted current earnings." Accordingly, a portion of the interest on the Bonds is included in computing such corporation's alternative minimum taxable income for such year.

Section 884 of the Code imposes on certain foreign corporations a branch profits tax equal to thirty percent (30%) of the "dividend equivalent amount" for the taxable year. Interest on the Bonds received or accrued by a foreign corporation subject to the branch profits tax may be included in computing the "dividend equivalent amount" of such corporation.

In addition, passive investment income, including interest on the Bonds, may be subject to federal income taxation under Section 1375 of the Code for any S corporation that has Subchapter C earnings and profits at the close of the taxable year, if more than twenty-five percent (25%) of the gross receipts of such S corporation is passive investment income.

In rendering its opinion, Bond Counsel has relied on the covenants contained in the Resolution and in the Certificate as to Non-Arbitrage, that it will comply with the applicable requirements of the Code, relating to, *inter alia*, the use and investment of proceeds of the Bonds and rebate to the United States Treasury of specified arbitrage earnings, if any, under Section 148(f) of the Code. Failure to comply with such covenants could result in the interest on the Bonds being subject to federal income tax from the date of issue. Bond Counsel has not undertaken to monitor compliance with such covenants or to advise any party as to changes in the law after the date of issuance of the Bonds that may affect the tax-exempt status of the interest on the Bonds.

Ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers including, without limitation, certain holders of an interest in a financial asset

securitization investment trust, controlled foreign corporations, property and casualty insurance companies, individual recipients of Social Security or Railroad Retirement benefits, individuals who otherwise qualify for the earned income credit, and to individuals and families that qualify for a premium assistance credit amount under Section 36B of the Code. The Code denies the earned income credit to an individual who is otherwise eligible if the aggregate amount of disqualified income of the taxpayer for the taxable year exceeds certain limits set forth in Sections 32(i) and (j) of the Code. Interest on the Bonds will constitute disqualified income for this purpose. The Code also provides that the earned income credit is phased out if the modified adjusted gross income of the taxpayer exceeds certain amounts. Interest on the Bonds is included in determining the modified adjusted gross income of the taxpayer. Section 36B of the Code provides that the amount of the premium assistance credit amount is in part determined by the household income. Section 36B(d) of the Code provides that household income consists of the modified adjusted gross income of the taxpayer and certain other individuals. Modified adjusted gross income means adjusted gross income increased by certain amounts, including interest received or accrued by the taxpayer which is exempt from tax, such as the interest on the Bonds.

In addition, attention is called to the fact that Section 265(b)(1) of the Code eliminates the interest deduction otherwise allowable with respect to indebtedness deemed incurred by banks, thrift institutions and other financial institutions to purchase or to carry tax-exempt obligations acquired after August 7, 1986 other than "qualified tax-exempt obligations" as defined in Section 265(b)(3) of the Code. The County has *not* designated the Bonds as "qualified tax-exempt obligations" for the purposes of Section 265(b)(1) of the Code.

Owners of the Bonds should consult their own tax advisors as to the applicability and effect on their federal income taxes of the alternative minimum tax, the branch profits tax and the tax on passive investment income of S corporations, as well as the applicability and effect of any other collateral federal income tax consequences.

New Jersey

Bond Counsel is also of the opinion that interest on the Bonds and any gain from the sale thereof are not includable in the gross income of the owners thereof under the New Jersey Gross Income Tax Act, as presently enacted and construed.

Changes in Federal and State Tax Law

From time to time, there are legislative proposals in the United States Congress and in the states that, if enacted, could alter or amend the Federal and State tax matters referred to above or adversely affect the market value of the Bonds. It cannot be predicted whether or in what form any such proposals might be enacted or whether, if enacted, it would apply to bonds or notes issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the Bonds.

PROSPECTIVE PURCHASERS OF THE BONDS SHOULD CONSULT WITH THEIR OWN TAX ADVISORS REGARDING ANY FEDERAL AND STATE INCOME TAX LEGISLATION, WHETHER CURRENTLY PENDING OR PROPOSED, REGULATORY INITIATIVES OR LITIGATION. THE OPINIONS EXPRESSED BY

REFUNDING BOND COUNSEL ARE BASED UPON EXISTING LEGISLATION AND REGULATIONS AS INTERPRETED BY RELEVANT JUDICIAL AND REGULATORY AUTHORITIES AS OF THE DATE OF ISSUANCE AND DELIVERY OF THE BONDS AND BOND COUNSEL HAS EXPRESSED NO OPINION AS OF ANY DATE SUBSEQUENT THERETO OR WITH RESPECT TO ANY PENDING LEGISLATION, REGULATORY INITIATIVES OR LITIGATION.

APPENDIX A

General Information Concerning the County

GENERAL INFORMATION CONCERNING THE COUNTY OF GLOUCESTER

Introduction

The County of Gloucester, New Jersey ("County") operates under the Commissioners form of County government in which a seven-member Board of County Commissioners ("Board") is elected for staggered three-year terms. A County Administrator is appointed by the Board to be responsible for daily operations of the County government. The Board operates through a committee system and is required to perform both executive and legislative responsibilities in: (i) formulating County policies; (ii) developing new County programs; (iii) appointing members of the various commissions and boards; and (iv) approving the operating and capital budgets and appropriating the funds that are received from the 24 municipalities of the County to maintain all County services.

Location and Profile

The County is located between Camden and Salem Counties, with its western shore lying along the Delaware River, south of the City of Philadelphia. The County covers an area of 329 square miles. Within a few miles of the Delaware River, there is a concentration of both industry and people. Extensive farmlands in the eastern portion of the County make the County one of the State's leading agricultural counties. The County is also a home site for thousands of commuters to the Philadelphia metropolitan area.

Transportation and Manufacturing

The County is served by a modern high-speed road network and comprehensive rail and air routes. The New Jersey Turnpike and Interstate 295 provide access to and from the County and its industry. Both the New Jersey Turnpike and Interstate 295 parallel the Delaware River and provide north-south access to the County. The Atlantic City Expressway and Route 42 provide east-west access to the County. The County is also traversed by U.S. Routes 130 and 322 and State Routes 41, 44, 45, 47, 55 and 77. A bypass to U.S. Route 322 north of Mullica Hill was completed in 2012 to relieve congestion through the town. There are also 404 miles of County roads that provide access to and from the County.

Air transportation is facilitated by the Philadelphia International Airport, Atlantic City International Airport, the Northeast Philadelphia Airport, and two (2) commercially licensed airports in the County.

The Delaware River continues to serve the County's industry needs with direct access to the Atlantic Ocean and Philadelphia Ports such as the South Jersey Port Corporation, the Port of Philadelphia, the Delaware River Port Authority and the Port of Wilmington.

Freight rail service is provided by CSX and Norfolk Southern Transportation Corporation. The Glassboro-Camden Line (GCL) is a proposed 18-mile passenger rail line between Glassboro and Camden in Southern New Jersey. NJ TRANSIT is funding the \$8.1 million environmental study with DRPA acting as project manager. The GCL corridor traverses Gloucester and Camden counties including the communities of Glassboro, Pitman, Sewell, Mantua Twp., Deptford Twp., Wenonah, Woodbury Heights, Woodbury, Westville, Brooklawn, Gloucester City and Camden.

The South Jersey Port Corporation ("SJPC") and the Gloucester County Improvement Authority has developed a new state-of-the-art marine terminal in the Borough of Paulsboro, with Holt Logistics Corp ("Holt"), with which a partnership was entered into in July 2014 for its construction. Located on the banks of the Delaware River, the facility, a redevelopment of the terminal, is the first new multi-purpose marine terminal on the Delaware River in over 30 years. The Paulsboro Marine Terminal is a 190-acre development with a 3,000-foot-deep water berth and 21,000 feet of rail track which opened March 2, 2017. The terminal provides over 300 jobs, securing a new tenant from Russia with regards to steel slabs.

In early 2021, Gloucester County announced plans to build a \$250 million facility to manufacture monopile components for the entire U.S. wind industry at the Port of Paulsboro, N.J. This project will be America's Largest Offshore Wind Manufacturing Hub. Ocean Wind, a joint venture between Ørsted and PSEG, and steel pipe manufacturer EEW, have broken ground for the EEW monopile manufacturing facility at the Port of Paulsboro Marine Terminal. The start of construction marks a significant milestone in delivering the largest industrial offshore wind manufacturing facility in the U.S. to date. Construction of the facility will be completed under a Project Labor Agreement (PLA) with the South Jersey Building Trades Council. Ocean Wind is an 1,110 MW offshore wind project by Ørsted and PSEG that will provide enough clean energy to power 500,000 New Jersey homes. Creating more than 500 skilled jobs at build-out in 2023. The construction of two large buildings that will support circumferential welding, sandblasting, and painting. EEW has contracted with more than 30 New Jersey companies in support of design, permitting, site work, and concrete creating the beginnings of the South Jersey Offshore Wind Industry supply chain that will continue to grow in our region.

Health Care

Two (2) hospitals provide health care in the County. The first, Jefferson Health System's Washington Township Campus, is located in Washington Township, formerly known as Kennedy Hospital. The second, Inspira Medical Center, is located in Mullica Hill (Harrison Township), and contains 210 licensed beds. This has changed since the hospital has relocated to Mullica Hill. Inspira Medical Center has also recently undergone an expansion to better serve the health care needs of the County, including an expanded/renovated emergency room/center, plans to build a surgical center and the establishment of several additional family practice centers throughout the County. Inspira Medical Center has over 1,825 full and part time employees and a medical and dental staff of 400.

Also located within the County are 24 specialized care facilities. The 24 facilities include nine (9) assisted living facilities, seven (7) residential health care facilities, and eight (8) long-term care facilities.

Atrium Health, located in the City of Woodbury holds a total of 244 beds. This facility created about 400-500 new employment opportunities for the County. On site amenities for the facility include The Woodbury Country Club, aquatic therapy pool, salon/massage parlor, handicap accessible theater, a physical/occupational and speech therapy office.

The Nemours-duPont Pediatric Center opened a location in the Township of Deptford which has created 60 professional healthcare jobs and 120 employees to staff the facility.

Recreation and Distribution

One of the County's most notable assets is the opportunity it provides to rediscover nature. With its parks, camp grounds, lakes and streams, the County provides an excellent opportunity for all of its residents to enjoy the natural environment. Six (6) golf courses and four (4) boat launches are located in the County to provide other forms of recreation.

The County has worked to actively expand both the municipal and County Park systems. Through the County's Open Space Preservation Program, new parks were created for the township of East Greenwich, Greenwich, Glassboro, Monroe and Woodbury. Municipal expansion of existing parks has been completed in Mantua Township, Washington Township and Woodbury Heights Borough. Acquisitions are currently underway in Woolwich Township, Harrison Township, West Deptford Township, Mantua Township and Glassboro Borough. The County has also completed seven (7) expansions of the County Park system and has completed a bike path project.

In June of 2008, phase one of the Delaware River Equestrian, Agriculture and Marine Park ("DREAM Park") opened in Logan Township. The 74-acre equestrian complex features a 150 x 300-foot temperature controlled indoor arena with bleacher seating for 600 spectators, a separate area for auctions and exhibits, two barns that can accommodate 238 horses, five outdoor rings and a concession area. In addition to being a premier equestrian facility, DREAM Park has been used for canine agility trials and various regional events.

Farming

The County has secured numerous land additions to the county parks system and has assisted with additions to municipal open spaces that includes land in Deptford Township, East Greenwich Township, Glassboro Borough, Greenwich Township, Harrison Township, Logan Township, Mantua Township, Monroe Township, Swedesboro Borough, Washington Township, West Deptford Township, Woodbury City, Woodbury Heights Borough and Woolwich Township. A bike path project has also been completed that encompasses land in a number of municipalities. As of this date the County has participated in the acquisition of more than 3,477.5 acres of open space. For more than a decade the County has overseen one of the most aggressive farmland preservation programs in the State. Since its inception the County has permanently preserved 19,187 acres of farmland, encompassing more than 200 individual farms in 14 different municipalities.

The College added an automatic-dual acceptance initiative with five (5) four-year universities which makes earning a bachelor's degree an uncomplicated progression with added benefits. The College's educational partners offer a variety of programs and incentives to the College graduates ranging from tuition discounts to obtaining a bachelor's degree on the College campus.

The College is currently constructing a 27,390 square-foot Health Science Center to open January 2023.

Located on 250 acres in Deptford Township, New Jersey, the College's main campus also houses the Career and Technical Education Center that will provide wind turbine technician training for employers in the off-shore wind industry.

The University's main campus, on approximately 200 acres in the southern New Jersey town of Glassboro, is about 20 minutes southeast of Philadelphia and about one hour west of Atlantic City. It is approximately two hours from New York City and just a two-and-a-half-hour drive to Washington, D.C. The locale provides students all of the advantages of a suburban campus plus opportunities for entertainment, cultural events and professional opportunities in major east coast metropolises and the nation’s capital.

Rowan has acquired approximately 600 acres of open space in Glassboro and neighboring Harrison and Mantua Townships, some of which is home to the South Jersey Technology Park at Rowan University. A portion of the land on that parcel informally referred to as the “West Campus” was developed into athletic fields. In May of 2016, Rowan sold 100 acres of West Campus land in Harrison Township to Inspira Health Network of New Jersey (“Inspira”). Inspira built a new \$349 million, 467,000 square foot, 204-bed medical center which opened in December 2019 which provides Rowan with a wide range of educational opportunities. It will also act as an anchor that is expected to attract health-care providers, researchers, and businesses to the area.

On July 6, 1992, Mr. & Mrs. Henry M. Rowan pledged \$100 million to the Glassboro State College Development Fund. Terms of the gift required establishment of an Inductotherm Scholarship Fund in the amount of \$3 million and the creation of a School of Engineering. In 1992, the name of the University was changed from Glassboro State College to Rowan College of New Jersey. On March 21, 1997, the school became Rowan University.

In Fiscal Year 2015, following a subsequent gift announcement from the Henry M. Rowan Family Foundation of \$15 million, the College of Engineering was renamed the Henry M. Rowan College of Engineering in Mr. Rowan’s honor.

On October 17, 2016, Rowan University alumni Jean and Ric Edelman made history when they announced a \$25 million gift to transform the Rowan University Fossil Park into a world-class destination for scientific discovery and “citizen science.” The Fossil Park will be known as the Jean & Ric Edelman Fossil Park at Rowan University. The gift from the Edelman’s is the largest ever from Rowan alumni and the second largest gift in the institution’s history. Plans for the tract include a museum and visitor center, laboratory spaces, a nature trail, a paleontology-themed playground, and social spaces. Construction began in the 4th quarter of 2021 to establish a world-class museum and visitor center focusing on STEM, Education laboratory spaces for research a paleontology-themed playground and social spaces. The \$71 million-dollar Museum project will attract visitors worldwide and enhance Gloucester County as known tourism destination. Estimated completion date is Spring 2023.

In 2017, Rowan opened the new \$63.2 million dollar, four-story, 96,500-square-foot Rohrer College of Business facility, which houses 16 classrooms, 7 conference rooms, 10 specialty spaces, 15 administrative offices, and 70 faculty offices. Along with the new College of Business facility, Rowan opened a three story, 90,500 square-foot, \$71 million addition to the College of Engineering building and opened the new \$145 million Holly Pointe Commons housing complex, which houses 1,400 students on campus.

In 2021, Rowan completed Discovery Hall, a 68,000 square-foot academic and research building. Anchoring the academic corridor from the east end of Rowan University’s Glassboro campus, Discovery Hall expands facilities for the School of Earth & Environment and the College of Science & Mathematics.

The Rowan University School of Veterinary Medicine (SVM) building complex will be located on the north side of Rowan’s West Campus. Designed as a multipurpose learning environment, the envisioned 135,000 sf complex is proposed to contain an approximately 60,000 square-foot academic building, a 25,000 square-foot hospital, and 50,000 square-foot of research space. The SVM will be serving approximately 400 students of all levels by its fifth year of operation who will have access to physical resources such as large auditoriums and break out study rooms, pre-clinical laboratories and surgical facilities, and state of the-art-technologies for learning and teaching.

In collaboration with the Gloucester County Improvement Authority, Rowan University intends to build a proposed Global Solutions Facility with a 100,000 square-foot mixed R&D and manufacturing facility.

The Bankbridge Development Center ("BDC") opened in 2007. With an emphasis on developing skills in the areas of communication, socialization, and independence, the BDC strives toward helping students become participating and contributing members of their community. Education, advocacy, public awareness efforts, and the promotion of research form the cornerstones of the activities. Together, they can promote lifelong access and opportunity for all individuals within the autism spectrum and/or multiply disabled.

BDC student outcome goals include, but are not limited to:

- The development of a functional communication system in order to increase interaction and enhance adaptive behaviors.
- Effectively providing functional, skill-based instruction to develop each student's social, behavioral and academic abilities.

RETIREMENT SYSTEMS AND PENSION FUND

Substantially all eligible employees of the County are covered by either the Public Employees' Retirement System or Police or Firemen's Retirement System, a cost-sharing, multiple-employer defined benefit pension plan which has been established by state statute and is administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the retirement systems. The reports may be obtained by writing to the

Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295 or can be accessed on the internet at <http://www.state.nj.us/treasury/pensions/actuarial-rpts.shtml>.

The Division of Pensions and Benefits within the Treasury Department of the State ("Division") is the administrator of the funds with benefit and contribution levels set by the State. The County currently has no unfunded past pension liability.

Public Employees' Retirement System¹

The Public Employees' Retirement System includes approximately 1,008 non-uniformed County employees. The system is evaluated every year and the County's contribution is determined on an actuarial basis by the Division. Employee rates of contribution are 7.5%. The County's contribution for 2021 was \$7,758,837 equal to the County's required contribution for such year.

Police and Firemen's Retirement System¹

Approximately 154 County employees are covered under the Police and Firemen's Retirement System. The State's requirement for the County's contribution is determined on an actuarial basis by the Division. Employee rates of contribution are 10%. The County's contribution for 2021 was \$4,627,448, equal to the County's required contribution for such year.

Funding Policy

The contribution policy is set by NJSA 43:15A, Chapter 62, P.L. of 1994, Chapter 115 P.L. of 1997 and NJSA 18:66 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The PERS contribution rate increased to 6.5% of base salary effective with the first payroll, to be paid on or after October 1, 2011. Subsequent increases will then be phased in over 7 years (each July 1st) to bring the total pension contribution rate to 7.5% of base salary as of July 1, 2018. The PFRS contribution rate increased to 10% of base salary effective with the first payroll to be paid on or after October 1, 2011. Employers are required to contribute at an actuarially determined rate in PERS and PFRS. The actuarially determined contribution includes funding for, cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums.

Defined Contribution Retirement Program (DCRP)

The County established Defined Contribution Retirement Program by resolution on June 18, 2008, as required by Chapter 92 of the Laws of 2007 and NJSA 43:15C-1 et. seq. DCRP provides for employee contributions of 5.5% of employee's annual base salary. Employers are required to contribute 3% of the employee's base salary. The County's contributions to DCRP for the years ending December 31, 2021, 2020 and 2019 were \$65,673, \$66,465 and \$57,447 and respectively, equal to the required contributions for each year.

Post-Employment Healthcare Plan

The County contributes to the State Health Benefits Program ("SHBP"), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the Division. The SHBP was established in 1961 under NJSA 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. The SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents. The County contribution to SHBP for the year ended December 31, 2021, was \$17,687,425 which equaled the required contributions for the year.

COUNTY TAXES

County Property Tax Rates

County taxes on real property are not levied by the County directly, but the amounts required to be raised are apportioned to the municipalities by the Board of Taxation located in each county. The County Board of Taxation fixes and determines the tax rate, which includes the amount required for county, local school districts and local municipal requirements.

Current property taxes are collected by the tax collectors of the municipalities within the County. Property taxes are due in four (4) installments, which become delinquent on February 1, May 1, August 1 and November 1. Each municipality is required to pay to the County Treasurer its share of the county purpose tax on the fifteenth (15th) day of February, May, August and November of each year, and if need be, to borrow money to make such payments as provided by New Jersey Statutes. Consequently, counties in the State experience 100% tax collection.

The following schedule shows the County property tax rate and the equalized valuation on which such County taxes were apportioned.

County Assessment Pilot Program

As part of a pilot program approved by the State, the County has finalized the assessment of real property and taken over the assessment process from the various municipalities located within the County.

(1) Preliminary numbers from County Website Updated as of April 2022

Tax Appeals

State Statutes provide a taxpayer with remedial procedures for appealing an assessment deemed excessive. Prior to February 1 in each year, the municipalities within the County must mail to each property owner a notice of the current assessment and taxes on the property. That taxpayer has a right to petition the County Tax Board on or before April 1 for review. The County Board of Taxation has the authority, after a hearing, to decrease the assessment or reject the appeal petition. These adjustments are usually concluded within the current tax year and reductions are shown as cancelled or remitted taxes for that year. If the taxpayer feels the petition was unsatisfactorily reviewed by the County Board of Taxation, appeal may be made to the Tax Court of New Jersey for further hearing. Some State Tax Court appeals may take several years prior to settlement and any losses in tax collections from prior years are charged directly to operations.

Business Retention Act

Under the provisions of N J S.A. 54:4-1 et seq., all property, real and personal, within the jurisdiction of the State not expressly exempted from taxation is subject to taxation annually under the statute. Additionally, pursuant to the Business Retention Act, N J S.A. 54:4-1.13 et seq., machinery, apparatus or equipment of a petroleum refinery directly used for refining crude oil into petroleum production is taxable as tangible personal property. The standard of value of tangible personal property subject to taxation is assessed on the true value thereof, which is presumed to be the original cost less depreciation as of the assessment date, as shown on the books and records of the person assessed, provided that the true value of depreciable property shall, so long as such property remains in use or is held for use, be presumed to be not less than 20% of its original cost.

The taxable value of tangible personal property shall be at that percentage of true value as shall correspond to the average ratio of assessed value of real property promulgated by the Director of the Division of Taxation on October 1 of the pre-tax year for State school aid purposes. The taxable value determined pursuant to this promulgation shall be taxed at the general real property tax rate of the taxing district.

On or before September 1 each year, any person owing tangible personal property is required to prepare and file with the tax assessor a return of such taxable personal property in the form and containing the information as prescribed by the Director of the Division of Taxation.

REAL PROPERTY ASSESSMENTS

Each county board of taxation annually ascertains and determines the general ratio or percentage of true value at which the assessed value of real property of each taxing district is assessed. It prepares an equalization table showing the assessed valuation of the real property in each district, the ratio or percentage, if any, by which the assessed valuation should be increased or decreased in order to correspond to true value.

For the 2021 tax year, the County Board of Taxation filed with the State, on behalf of the twenty-four municipalities, the following aggregate assessed values and true values are shown below.

COUNTY FINANCES

The Budget Process

The County's process for establishing its annual operating and capital budgets, including submission of the budget to the Board, its approval by the Board and its certification by the Director ("Director") of the Division of Local Government Services ("Division of LGS"), are set forth by State statute. The County Treasurer is responsible for the preparation of the annual budgets.

The budget process begins with the submission of appropriation requests by the directors and managers of the various county departments and agencies to the Budget Committee which consists of the County Administrator, Deputy Administrator and the County Treasurer. The Committee reviews the requests, evaluates financial factors affecting the County, then makes recommendations to the Board of Commissioners.

The Board of Commissioners then meets to act on the Budget Committee's recommendations and to adopt a balanced budget which meets the desired goals.

Local Budget Law (N.J.S.A. 40A:4-1 et seq.)

The Local Budget Law, Chapter 4 of Title 40A of the New Jersey Statutes, as amended and supplemented ("Local Budget Law"), governs the budgeting and appropriation of funds by counties and municipalities.

The Local Budget Law requires counties and municipalities to adopt a "cash basis" budget (unless otherwise permitted by law) in such form that there will be sufficient cash collected to meet all debt service requirements, necessary operations of the municipalities for the fiscal year and any mandatory payments required to be met during the fiscal year.

No budget shall be adopted unless the Director shall have previously certified his approval thereof. Every county and municipality must include in its budget an appropriation for the payment of debt service. The Director is required to examine such appropriation to determine whether it is properly set forth, in addition to determining whether all estimates of revenue contained in the budget are reasonable, accurate and correctly stated.

A statute passed in 1976, as amended (N.J.S.A. 40A:4-45.1 et seq.), commonly known as the "Cap Law", imposed restrictions which limit the allowable increase on county taxes over the previous year's taxes to the lesser of two and one-half percent (2 1/2%), or the rate of the annual percentage increase in the Implicit Price Deflator for State and Local Government purchases of goods and services, as published by the United States Department of Commerce ("Cost of Living Adjustment"). If the Cost-of-Living Adjustment is equal to or less than two and one-half percent (2 1/2%), an increase greater than the Cost of Living Adjustment, but not to exceed three and one-half percent (3 1/2%) over the previous year's county tax levy, will be permitted. If the Cost-of-Living Adjustment is equal to or less than two and one-half percent (2 1/2%) and a county increases its final appropriations or county tax levy in an amount less than three and one-half percent (3 1/2%), it may, in either of the following two years' budgets appropriate additional taxes in an amount equal to the difference between its actual final appropriations or county tax levy and three and one-half percent (3 1/2%). Exceptions to the limitations imposed by the Cap Law exist for, among other things, the payment of debt service; capital expenditures; extraordinary expenses approved by the Local Finance Board required for implementation of an interlocal services agreement; expenditures mandated as a result of certain emergencies; and certain expenditures for services mandated by court order or Federal or State law.

Additionally, legislation constituting P.L. 2010, c.44, was adopted on July 13, 2010, which, among other things, imposes a two percent (2%) cap on the tax levy that municipalities, counties, fire districts and solid waste collection districts may impose, with very limited exceptions and subject to certain adjustments.

Exclusions from the two percent (2%) tax levy cap include: (i) increases required to be raised by taxation for capital expenditures, including debt service as defined by law; (ii) increases in pension contributions and accrued liability for pension contributions in excess of 2.0%; (iii) increases in health care costs equal to that portion of the actual increase in total health care costs for the budget year that is in excess of 2.0% of the total health care costs in the prior year, but is not in excess of the product of the total health care costs in the prior year and the average percentage increase of the State Health Benefits Program, P.L.1961, c.49 (C.52:14-17.25 et seq.), as annually determined by the Division of Pensions and Benefits in the Department of the Treasury; and (iv) and extraordinary costs incurred by a local unit directly related to a declared emergency, as defined by regulation promulgated by the Commissioner of the Department of Community Affairs, in consultation with the Commissioner of Education, as appropriate. The amendments to the tax levy sections of the "Cap Law" (specifically, N J S.A. 40A:4-45-46) in 2010 no longer permit municipalities, counties, fire districts and solid waste collection districts to request approval from the Local Finance Board for a waiver to increase the amount to be raised by taxation in excess of the two percent (2%) cap. However, counties, municipalities, fire districts and solid waste collection districts may request, through a public question submitted to the voters, an increase in the amount to be raised by taxes above the two percent (2%) tax levy cap. Such approval must be achieved by an affirmative vote in excess of fifty percent (50%) of those voting on such public question.

Neither the tax levy limitation nor the "Cap Law" limits the obligation of the County to levy ad valorem taxes upon all taxable real property within the County to pay debt service on bonds or notes issued by the County or obligations guaranteed by the County.

The Local Fiscal Affairs Law (N.J.S.A. 40A:5-1 et seq.)

This law regulates the non-budgetary financial activities of local governments. The chief financial officer of every local unit, including the County must file annually, with the Director, a verified statement of the financial condition of the local unit and all constituent boards, agencies or commissions.

An independent examination of each local unit account must be performed annually by a licensed registered municipal accountant. The audit, conforming to the Division of LGS's "Requirements of Audit", includes recommendations for improvement of the local unit's financial procedures and must be filed with the report, together with all recommendations made, and must be published in a local newspaper within 30 days of its submission. The County's entire annual audit report for the year ended December 31, 2020 is on file with the Clerk of the Board and is available for review during business hours. The 2020 Audit is also available on the County's website at <http://www.co.gloucester.nj.us>.

General Expenditures of the County

County expenditures are comprised of those made for general county purposes, certain expenditures made from restricted Federal, State and private grants, certain Federal or State mandated expenditures, deferred charges, debt service and capital improvements. DISCUSSION OF FINANCIAL OPERATIONS

Basis of Accounting

The accounting policies of the County conform to the accounting principals applicable to counties which have been prescribed by the Division. The following is a summary of the significant policies:

Basis of Accounting - A modified accrual basis of accounting is followed, with minor exceptions. Revenues are recorded as received in cash except for certain amounts which may be due from the State of New Jersey. Expenditures are recorded on the accrual basis. Appropriation reserves covering unexpended appropriation balances are automatically created on December 31 of each year and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred or entered into during the preceding fiscal year. Lapsed appropriation reserves are recorded as income.

Interfunds receivables in the Current Fund are recorded with offsetting reserves. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Fixed Assets - Property and equipment purchased by the Current Fund and the General Fund are recorded as expenditures at the time of purchase and are not capitalized.

The Current Fund

The County finances its operations primarily through the Current Fund. All tax receipts and most revenues are paid into the Current Fund and substantially all expenditures made by appropriations are paid from the Current Fund. The County operates on a January 1 to December 31 fiscal year.

REVENUE SOURCES OF THE COUNTY

County Tax Receipts and Other Revenues

The County purpose taxes are apportioned among the constituent municipalities that comprise the County. The taxes reflect that portion of the total County equalized valuation that each municipality represents. The municipalities' and the County's valuations for this purpose include: (i) the total assessed valuation; (ii) an amount added or deducted to equalize the assessed valuation according to the ratio of assessed-to-true value promulgated by the State Division of Taxation on October 1 of the next preceding year; (iii) an amount which reflects the true value of municipality-owned property which is leased and income producing; (iv) the value of certain railroad property, adjusted downward to reflect only that portion on which local property taxes are not in default and uncollectible; and (v) the capitalized amount of replacement revenues-business personal property tax received during the next preceding year.

2021 Annual Debt Statements of all Municipalities

COUNTY INDEBTEDNESS

Debt Authorization

The Local Bond Law (N.J.S.A. 40A:2-1 et seq.) ("Local Bond Law") governs the issuance of bonds and notes by the County to finance certain expenditures. Among its provisions are requirements that bonds must mature within the statutory period of usefulness of the projects bonded, that bonds be retired in serial installments and that cash down payments equal to at least 5% of the bond authorization be generally provided.

Debt Limits

The debt of the County is limited by Local Bond Law to an amount equal to 2% of its equalized valuation basis. The equalized valuation basis of the County is set by statute as the average value of all taxable real property and improvements and certain Class II railroad property within its boundaries as annually determined by the State Board of Taxation for each of the three most recent years. Certain categories of debt are permitted by statute to be deducted for purposes of computing the statutory debt limit.

Exceptions to Debt Limits-Extensions of Credit

The debt limit of the County may be exceeded with the approval of the New Jersey Department of Community Affairs, Division of Local Government Services, Local Finance Board ("Local Finance Board"). If all or any part of a proposed debt authorization exceeds its debt limit, the County must apply to the Local Finance Board for an extension of credit. The Local Finance Board considers the request, concentrating its review on the effect of the proposed authorization on outstanding obligations and operating expenses and the anticipated ability to meet the proposed obligations. If the Local Finance Board determines that a proposed debt authorization would materially impair the ability of the County to meet its obligations or to provide essential services, approval is denied.

Debt Statements

The County must report all new authorization of debt or changes in previously authorized debt to the New Jersey Division of Local Government Services. The Supplemental Debt Statement, as this report is known, must be submitted to the Division of Local Government Services prior to final passage of any debt authorization. Before January 31 of each year, the County must file an Annual Debt Statement with the Division of Local Government Services. This report, prepared by the Chief Financial Officer, is made under oath and indicates the authorized, issued and unissued debt of the County as of the previous December 31. Through the Annual and Supplemental Debt Statements, the Division of Local Government Services monitors all local borrowing. Even though the County's authorizations are within its debt limits, the Division of Local Government Services is able to enforce State regulations as to the amounts and purposes of local borrowing.

The Gloucester County Improvement Authority

The Gloucester County Improvement Authority ("GCIA") is a public body corporate and politic of the State and was created by a resolution of the County Board adopted on December 16, 1963. The GCIA operates under the supervision of five (5) members who are appointed by the County Board for five-year staggered terms. The following table identifies the GCIA transactions in which the payment of debt service is secured either by payments pursuant to a County lease or loan agreement and/or County guaranty. The GCIA has undertaken other bond issues; however, repayment of the debt in those transactions is secured by sources other than the County.

The GCIA has never failed to make timely payment of the principal and/or interest on any of the bonds, notes, or obligations described below. The County has never failed to make timely payment of any payment obligations due pursuant to an agreement with the GCIA and pledged by the GCIA as security for the GCIA bonds. The County has never been required to make a payment pursuant to its guaranty of GCIA bonds or notes.

SOLID WASTE MATTERS

Pursuant to the Solid Waste Management Act, constituting Chapter 39 of the Pamphlet Laws of 1970 of the State of New Jersey (N J S.A. 13:1E-1 et seq.), as amended and supplemented and the regulations promulgated thereunder ("Solid Waste Management Act"), the New Jersey Legislature initiated a comprehensive statutory mechanism for the management of solid waste disposal in the State. The Solid Waste Management Act requires each county to develop a comprehensive plan for the collection, transportation and disposal of all solid waste generated in the County. The New Jersey Department of Environmental Protection ("NJDEP" or "Department") reviews and certifies each county plan to ensure its consistency with Statewide solid waste management objectives, criteria and standards.

Pursuant to the Solid Waste Management Act, the County has lawfully adopted and implemented a County-wide solid waste management plan, as the same has been amended and supplemented to date, through the auspices of the GCIA ("Solid Waste Management Plan"). Pursuant to the Solid Waste Management Plan and the McEnroe Act, N J S.A. 13-IE-136 et seq. ("McEnroe Act"), the County has full legal authority to control the disposal of all processible solid waste generated within the County. The County's Solid Waste Management Plan currently consists of two (2) primary components: (i) a mass burn waste-to-energy facility located in West Deptford, New Jersey ("Resource Recovery Facility"); and (ii) the Gloucester County Landfill which is owned and operated by the GCIA ("Landfill").

Pursuant to and in accordance with the Solid Waste Management Act and the McEnroe Act, and following a non-discriminatory procurement process, the County and the GCIA, on December 31, 2019, entered into a ten (10) year agreement with Wheelabrator Gloucester County L.P., a subsidiary of Granite Acquisition Inc. ("Company"), for the provision of disposal services related to solid waste generated within the County ("Agreement"). The Agreement, among other things, provides that the GCIA direct the disposal of all processible solid waste generated within the County to the Resource Recovery Facility and all bypass waste to the Landfill. In addition, the Agreement contractually obligates the Company to dispose of its residual ash waste at the Landfill, and authorizes the GCIA to accept at the Landfill for a disposal fee, construction and demolition waste and non-processible waste. The Agreement, by its terms, expires on December 31, 2029.

The GCIA has outstanding solid waste revenue bonds which were issued to finance various capital improvements and enlargements to the Landfill ("Solid Waste Bonds").

Information with respect to the Solid Waste Bonds is included in the table entitled "GCIA'S DEBT UNDER A LEASE OR LOAN AGREEMENT WITH THE COUNTY OR GUARANTEED BY THE COUNTY" herein.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Measurement Focus, Basis of Accounting and Financial Statement Presentation - The financial statements of the County contain all funds and account groups in accordance with the *Requirements of Audit* (the "*Requirements*") as promulgated by the State of New Jersey, Department of Community Affairs, Division of Local Government Services. The principles and practices established by the *Requirements* are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Generally, the financial statements are presented using the flow of current financial resources measurement focus and modified accrual basis of accounting with minor exceptions as mandated by these *Requirements*. In addition, the prescribed accounting principles previously referred to differ in certain respects from accounting principles generally accepted in the United States of America applicable to local government units. The more significant differences are explained in this note.

In accordance with the *Requirements*, the County accounts for its financial transactions through the use of separate funds and an account group which are described as follows:

Current Fund - The current fund accounts for resources and expenditures for governmental operations of a general nature, including federal and state grant funds.

Trust Funds - The various trust funds account for receipts, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created.

General Capital Fund - The general capital fund accounts for receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the current fund.

General Fixed Asset Group of Accounts - The general fixed asset group of accounts is utilized to account for property, land, buildings, and equipment that have been acquired by other governmental funds.

Budgets and Budgetary Accounting - The County must adopt an annual budget for its current, and open space/farmland/parks trust funds in accordance with N.J.S.A. 40A:4 et seq. N.J.S.A. 40A:4-5 requires the governing body to introduce and approve the annual county budget no later than January 26 of each year. At introduction, the governing body shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper published and circulating in the county. The public hearing must not be held less than eighteen days after the date the budget was introduced. After the hearing has been held, the governing body may, by majority vote, adopt the budget or may amend the budget in accordance with N.J.S.A. 40A:4-9. Amendments to adopted budgets, if any, are detailed in the statements of revenues and expenditures.

An extension of the statutory dates for introduction, approval and adoption of the County budget may be granted by the Director of the Division of Local Government Services, with the permission of Local Finance Board.

Budgets are adopted on the same basis of accounting utilized for the preparation of the County's financial statements.

Cash, Cash Equivalents, and Investments - Cash and cash equivalents include petty cash, change funds and cash on deposit with public depositories. All certificates of deposit are recorded as cash regardless of the date of maturity. Investments are stated at cost; therefore, unrealized gains or losses on investments have not been recorded.

New Jersey municipal units are required by N.J.S.A. 40A: 5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey municipal units. In addition, other State statutes permit investments in obligations issued by local utilities and other state agencies.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Cash, Cash Equivalents, and Investments (Continued) - N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

The cash management plan adopted by the County requires it to deposit funds in public depositories protected from loss under the provisions of the Act.

Interfunds - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the current fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various statements of assets, liabilities, reserves and fund balance.

General Fixed Assets - Accounting for governmental fixed assets, as required by N.J.A.C. 5:30-5.6, differs in certain respects from accounting principles generally accepted in the United States of America. In accordance with the regulations, all local units, including municipalities, must maintain a general fixed assets reporting system that establishes and maintains a physical inventory of nonexpendable, tangible property as defined and limited by the U.S. Office of Management and *Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Part 200, §200.12), except that the useful life of such property is at least five years. The County has adopted a capitalization threshold of \$5,000, the maximum amount allowed by the Circular. Generally, assets are valued at historical cost; however, assets acquired prior to December 31, 1985 are valued at actual historical cost or estimated historical cost. No depreciation of general fixed assets is recorded. Donated general fixed assets are recorded at acquisition value as of the date of the transaction. Interest costs relative to the acquisition of general fixed assets are recorded as expenditures when paid. Public domain ("infrastructure") general fixed assets consisting of certain improvements such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized. Expenditures for construction in progress are recorded in the Capital Funds until such time as the construction is completed and put into operation. The County is required to maintain a subsidiary ledger detailing fixed assets records to control additions, retirements and transfers of fixed assets. In addition, a statement of general fixed asset group of accounts, reflecting the activity for the year, must be included in the County's basic financial statements.

The regulations require that general fixed assets, whether constructed or acquired through purchase, grant or gift be included in the aforementioned inventory. In addition, property management standards must be maintained that include accurate records indicating asset description, source, ownership, acquisition cost and date, the percentage of Federal participation (if any), and the location, use, and condition of the asset. Periodically, physical inventories must be taken and reconciled with these records. Lastly, all fixed assets must be adequately controlled to safeguard against loss, damage, or theft.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Deferred Charges - The recognition of certain expenditures is deferred to future periods. These expenditures, or deferred charges, are generally overexpenditures of legally adopted budget appropriations or emergency appropriations made in accordance with N.J.S.A. 40A:4-46 et seq. Deferred charges are subsequently raised as items of appropriation in budgets of succeeding years.

Fund Balance - Fund Balance included in the current fund represents amounts available for anticipation as revenue in future years' budgets, with certain restrictions.

Revenues - Revenues are recorded when received in cash except for certain amounts which are due from other governmental units. Revenue from federal and state grants are realized when anticipated as such in the County's budget. Other amounts that are due to the County which are susceptible to accrual are recorded as receivables with offsetting reserves and recorded as revenue when received.

County Taxes - Every municipality within the County is responsible for levying, collecting and remitting county taxes for the County of Gloucester. County taxes are determined on a calendar year by the County Board of Taxation based upon the ratables required to be certified to them on January 10 of each year. Operations for every municipality are charged for the amount due the County for the year, based upon the ratables required to be certified to the County Board of Taxation by January 10 of the current year. In addition, operations for every municipality are charged for the County share of added and omitted taxes certified to the County Board of Taxation by October 10 of the current year and due to be paid to the County by February 15 of the following year.

Expenditures - Expenditures are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when paid. However, for charges to amounts appropriated for "other expenses", an amount is encumbered through the issuance of a numerically controlled purchase order or when a contract is executed in accordance with N.J.A.C. 5:30-5.2. When encumbered charges are paid, the amount encumbered is simultaneously liquidated in its original amount. Encumbrances are offset by an account entitled reserve for encumbrances. The reserve is classified as a cash liability under New Jersey municipal accounting. At December 31, this reserve represents the portion of appropriation reserves that has been encumbered and is subject to the same statutory provisions as appropriation reserves.

Appropriations for principal and interest payments on outstanding general capital bonds and notes are provided on the cash basis.

Appropriation Reserves - Appropriation reserves covering unexpended appropriation balances are automatically created at year-end and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments, or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as income.

Long-Term Debt - Long-term debt, relative to the acquisition of capital assets, is recorded as a liability in the general capital fund.

Compensated Absences and Postemployment Benefits - Compensated absences for vacation, sick leave and other compensated absences are recorded and provided for in the annual budget in the year in which they are paid, on a pay-as-you-go basis. Likewise, no accrual is made for postemployment benefits, if any, which are also funded on a pay-as-you-go basis.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Police and Firemen's Retirement System (PFRS) and the Public Employees' Retirement System (PERS), and additions to/deductions from PFRS' and PERS' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the County of Gloucester on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County of Gloucester as of December 31, 2020 and 2019, or changes in financial position for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the regulatory basis balance sheets and account group as of December 31, 2020 and 2019, the regulatory basis statements of operations for the years then ended and the regulatory basis statements of revenues and expenditures for the year ended December 31, 2020, in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Gloucester’s basic financial statements. The supplementary information listed in the table of contents and Schedule of Expenditures of Federal Awards, as required by *Audits of States, Local Governments, and Non-Profit Organizations, and/or Title 2*, U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Uniform Guidance, the Schedule of Expenditures of State Financial Assistance as required by NJ OMB 15-08, and the letter of comments and recommendations section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents and the Schedule of Expenditures of Federal Awards, as required by *Audits of States, Local Governments, and Non-Profit Organizations, and/or Title 2*, U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Uniform Guidance, and the Schedule of Expenditures of State Financial Assistance as required by NJ OMB 15-08 are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial

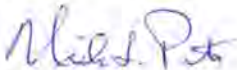

statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information listed in the table of contents, Schedule of Expenditures of Federal Awards, as required by *Audits of States, Local Governments, and Non-Profit Organizations*, and/or Title 2, U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Uniform Guidance and the Schedule of Expenditures of State Financial Assistance as required by NJ OMB 15-08 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The letter of comments and recommendations section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 26, 2021, on our consideration of the County of Gloucester's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Gloucester's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

**COUNTY OF GLOUCESTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2020 AND 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Except as noted below, the financial statements of the County of Gloucester included every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the County of Gloucester, as required by NJSA 40A:5-5.

Component units are legally separate organization for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provided financial support to the organization; or the County is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt or the levying of taxes. The County has component units. They are as follows:

- Gloucester County Improvement Authority
- Gloucester County Utilities Authority
- Rowan College at Gloucester County
- Gloucester County Institute of Technology
- Gloucester County Special Services School District
- Gloucester County Housing Authority
- Gloucester County Insurance Commission
- Gloucester County Library Commission
- Pollution Control Financing Authority of Gloucester County

These component units are not included in the County financial statements. These component units have independent audits of their individual financial statements.

B. Description of Funds and Account Groups

The accounting policies of the County of Gloucester conform to the accounting principles applicable to counties, which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the County of Gloucester accounts for its transactions through the following separate funds, which differ from the funds required by GAAP.

Current Fund - Resources and expenditures for governmental operations of a general nature, including Federal and State Grant Funds.

Trust Fund - Receipts, custodianship, and disbursement of funds in accordance with the purpose for which each reserve was created.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2020 AND 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Description of Funds and Account Groups (Continued)

General Capital Fund - Receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the Current Fund. In addition, the fund is used to track the status of debt authorized for capital projects.

Payroll/Payroll Agency Account - Receipt and disbursement of funds to meet obligations to employees and payroll tax liabilities.

General Fixed Assets - To account for fixed assets used in governmental operations (General Fixed Assets) are accounted for in the General Fixed Assets Account Group, rather than in Governmental Funds.

C. Basis of Accounting

The accounting principles and practices prescribed for counties in the State of New Jersey differ in certain respects from accounting principles generally accepted in the United States of America applicable to local governmental units. The more significant policies in New Jersey follow.

A modified accrual basis of accounting is followed with minor exceptions. The more significant accounting principles are as follows:

Revenues - are recorded when received in cash except for certain amounts which are due from other governmental units. Receipts from federal and state grants are realized as revenue when anticipated in the County budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the County's Current Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the County, which are susceptible to accrual, are also recorded as receivables with offsetting reserves and recorded as revenue when received. Fund balance utilized to balance the budget is recorded as revenue and budgeted transfers from other funds are also recorded as revenue when anticipated in the budget. This method of revenue recognition differs from accounting principles generally accepted in the United States of America which recognizes revenue in the accounting period in which it is earned, net of allowances for doubtful accounts.

Expenditures - are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods and services through the issuance of a purchase order in conjunction with the encumbrance accounting system. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements and constitute part of the County's statutory appropriation reserve balance. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves are available until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Grant appropriations are charged upon budget adoption to create separate spending reserves. Budgeted transfers to other funds are recorded as expenditures when the budget is adopted to the extent permitted or required by law. Appropriations for principal payments on outstanding general capital bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2020 AND 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Expenditures (Continued) - cash basis. This method differs from accounting principles generally accepted in the United States of America which requires that expenditures be recorded when services are rendered or goods are received. Under accounting principles generally accepted in the United States of America, appropriation reserves do not exist and encumbrances do not constitute expenditures.

Interfunds - Interfund receivables in the Current Fund are recorded with offsetting reserves, which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves. Under accounting principles generally accepted in the United States of America, interfunds are not reserved.

Inventories of Supplies - The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various balance sheets. Under accounting principles generally accepted in the United States of America, inventory would be recorded as an asset on the balance sheet.

Insurance - Cost of insurance for all funds are recorded as expenditures at the time of payment. Insurance costs chargeable to future periods are not carried as prepayments.

General Fixed Assets - In accordance with NJAC 5:30-5.6, Accounting for Governmental Fixed Assets, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles, the County has developed a fixed assets accounting and reporting.

Fixed assets used in Governmental operations (General Fixed Assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") General Fixed Assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems, are not capitalized.

All fixed assets are recorded at historical cost or estimated historical cost if actual historical cost is not available, in accordance with the State of New Jersey's Administrative Code. However, land and improvements are recorded at its assessed value, which is a departure from the aforementioned directive. The County capitalizes fixed assets with an original cost in excess of \$2,500.00.

No depreciation has been provided for in the financial statements.

Expenditures for construction in progress are recorded in the Capital Fund until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital, have not been accounted for separately.

General Long-Term Debt - General Long-Term Debt is accounted for in the General Capital Fund. Accounting principles generally accepted in the United States of America require General Long-Term Debt to be accounted for in the General Long-Term Debt Account Group.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America or the regulatory basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

D. Comparative Data

Comparative total data for the prior year has been presented in the accompanying Balance Sheets and Statement of Operations in order to provide an understanding of changes in the County's financial position. However, comparative (i.e., presentation of prior year totals by fund type) data have not been presented in the Statement of Revenues - Regulatory Basis and the Statement of Expenditures - Regulatory Basis since their inclusion would make the statements unduly complex and difficult to read.

NOTE 3: CASH AND CASH EQUIVALENTS

Custodial Credit Risk – Deposits

Custodial Credit Risk is the risk that in the event of a bank failure, the government's deposits may not be able to recover the value of its deposits or investments. Deposits are considered to be exposed to custodial credit risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. The County's policy is based on New Jersey Statutes requiring cash to be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Unit Deposit Protection Act (GUDPA) or in qualified investments established in NJSA 40A:5-15.1(a) that are treated as cash equivalents. At December 31, 2020 and 2019, the carrying amount of the County's deposits was \$149,427,824.87 and \$153,990,573.01, respectively. Police and Firemen's Retirement System (PFRS) - The Police and Firemen's Retirement System was established in July 1944 under the provisions of NJSA 43:16A to provide coverage to substantially all full-time county or municipal police and fire-fighters and State fire-fighters appointed after June 30, 1944. Plan members and employer contributions may be amended by State of New Jersey legislation.

NOTE 9: PENSION FUNDS (CONTINUED)

Defined Contribution Retirement Program (DCRP) - The County established Defined Contribution Retirement Program by resolution on June 18, 2008, as required by Chapter 92 of the Laws of 2007 and NJSA 43:15C-1 et seq. DCRP provides for employee contributions of 5.5% of employees' annual base salary. Employers are required to contribute 3% of the employees' base salary.

Funding Policy - The contribution policy is set by NJSA 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997, and NJSA 18:66 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The PERS provide for employee contributions of 7.50% of employees' annual compensation. The PFRS provides for employee contributions of 10% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in the PERS and PFRS. The PERS and PFRS rates in effect for 2020 are 13.69% and 29.80%, respectively, of covered payroll, as reported on June 30, 2019. The actuarially determined contribution includes funding for, cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums.

The County's contributions to the PERS for the years ending December 31, 2020, 2019, and 2018, were \$7,236,132.00, \$7,459,867.00, and \$6,881,498.00, respectively, equal to the required contributions for each year. The County's contributions to the PFRS for the years ending December 31, 2020, 2019, and 2018, were \$4,306,517.00, \$4,084,010.00, and \$3,610,165.00, respectively, equal to the required contributions for each year. The County's contributions to DCRP for the years ending December 31, 2020, 2019, and 2018, were \$66,464.82, \$57,447.44, and \$57,917.82, respectively, equal to the required contributions for each year.

Significant Legislation - Chapter 78, P.L. 2011, effective June 28, 2011, made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011, (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of $\frac{1}{4}$ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011, (Tier 3 members), will be 60% instead of 65% of the member's final compensation, plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.

NOTE 9: PENSION FUNDS (CONTINUED)

Significant Legislation (Continued)

- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, special retirement under the PFRS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of the PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of the PERS to 1/60th from 1/55th, and it provided that new members of the PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of the PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for Social Security and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined at 1/7th of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program (DCRP).

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006, report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

NOTE 10: POSTEMPLOYMENT HEALTHCARE PLAN

Plan Description - The County of Gloucester contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit postemployment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. The SHBP was established in 1961 under NJSA 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP. In 2012, the County of Gloucester authorized participation in the SHBP's post-retirement benefit program and prescription drug program through resolution adopted January 18, 2012, effective May 1, 2012. The County's policies provide for health insurance and prescription coverage, to eligible retirees and their spouses that participate in the SHBP's post-retirement benefit program with the local unit.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issue a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at: www.state.nj.us/treasury/pensions/hb-employers.shtml.

Funding Policy - Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the County of Gloucester on a monthly basis. Plan members receiving benefits are not required to make contributions.

The County of Gloucester's contributions to the SHBP for healthcare of employees and retirees for the years ended December 31, 2020, 2019, and 2018, were \$17,116,668.75, \$21,020,800.64, and \$20,358,011.81. The amounts paid for retirees for the years ended December 31, 2020, 2019, and 2018, were \$7,248,222.13, \$7,094,904.22, and \$10,723,966.99, respectively, which equaled the required contributions for each year.

NOTE 11: FINANCIAL INFORMATION RELATED TO GASB 68 & GASB 71 FOR PUBLIC RETIREMENT SYSTEMS

New Jersey municipalities do not follow GAAP accounting principles and, as such, do not follow GASB requirements with respect to recording the net pension liability as a liability on their balance sheets. However, NJAC 5:30-6.1(c)(2) requires municipalities and counties to disclose GASB 68 & GASB 71 information in the Notes to the Financial Statements. The following disclosures meet the requirements of GASB 68 & GASB 71 for the PERS and PFRS retirement systems.

NOTE 11: FINANCIAL INFORMATION RELATED TO GASB 68 & GASB 71 FOR PUBLIC RETIREMENT SYSTEMS (CONTINUED)

Public Employee's Retirement System - At December 31, 2020, the County's proportionate share of net pension liability was \$115,660,004. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020 and 2019, the County's allocation percentage was 0.7092492435% and 0.7414752435%, respectively.

For the year ended December 31, 2020, the County's pension expense would have been \$(9,169,059) if New Jersey municipalities followed GAAP accounting principles. The County's deferred outflows of resources and deferred inflows of resources (which are not recorded) related to the PERS are from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

Difference Between Expected and Actual Experience		1,410,009
	\$ 2,502,620	\$ 50,139,439

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions are not recognized in pension expense since New Jersey municipalities do not follow GAAP accounting principles.

Actuarial Assumptions

The total pension liability for the June 30, 2020, measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00 – 6.00% Based on Age
Thereafter	3.00 – 7.00% Based on Age
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Actuarial Assumptions (Continued)

Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pension and Benefits financial report at: <http://www.state.nj.us/treasury/pensions/gasb-notice.shtml>.

Police and Firemen's Retirement System - The County has two separate retirement systems one for sheriffs and one for prosecutors.

At December 31, 2020, the County's proportionate share of net pension liability for Sheriff (number 70800) was \$39,371,136. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020 and 2019, the County's proportion was 0.3046990519% and 0.3178719254%, respectively.

For the year ended December 31, 2020, the County's pension expense would have been \$(2,192,419) if New Jersey municipalities followed GAAP accounting principles. The County's deferred outflows of resources and deferred inflows of resources (which are not recorded) related to the PFRS are from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of Assumptions		\$ 9,207,911

Difference Between Expected and Actual Experience	320,248	
	\$ 6,732,728	\$ 9,207,911

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions are not recognized in pension expense since New Jersey municipalities do not follow GAAP accounting principles.

If GAAP accounting principles were followed, the other amounts reported as deferred outflows of resources and deferred inflows of resources would have been recognized in pension expense as follows:

At December 31, 2020, the County’s proportionate share of net pension liability for Prosecutors (number 70803) was \$14,150,428. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County’s proportion of the net pension liability was based on a projection of the County’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020 and 2019, the County’s proportion was 0.1095122555% and 0.1084692116%, respectively.

For the year ended December 31, 2020, the County’s pension expense would have been \$197,606 if New Jersey municipalities followed GAAP accounting principles. Contributions

The contribution policy for the PFRS is set by NJSA 43:16A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The County's contribution amount was based on an actuarially determined rate which includes the normal cost and unfunded accrued liability.

Actuarial Assumptions

The total pension liability for the June 30, 2020, measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions:

Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through all Future Years	3.25 – 15.25% Based on Years of Service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 Safety Employee mortality table with a 105.6% adjustment for males and 102.5% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries (contingent annuitants), the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152.0% adjustment for males and 109.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pension and Benefits financial report at: <http://www.state.nj.us/treasury/pensions/gasb-notices.shtml>.

Actuarial Assumptions (Continued)

A special funding situation exists for the Local employers of the Police and Fire Retirement System of New Jersey. The State of New Jersey, as a non-employer, is required to pay the additional costs incurred by Local employers under Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993, and Chapter 201, P.L. 2001. The June 30, 2020 and June 30, 2019, special funding situation net pension liability amounts of \$6,110,221 and \$6,142,477 for Sheriff and \$2,196,082 and \$2,096,032 for Prosecutors are the accumulated differences between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date.

NOTE 12: FINANCIAL INFORMATION RELATED TO GASB 75 FOR PUBLIC RETIREMENT SYSTEMS

New Jersey municipalities do not follow GAAP accounting principles and, as such, do not follow GASB requirements with respect to recording the net other postemployment benefit (OPEB) liability as a liability on their balance sheets. However, NJAC 5:30-6.1(c)(2) requires municipalities and counties to disclose GASB 75 information in the Notes to the Financial Statements. The following OPEB liability note information is reported at the State’s level and is not specific to the municipality. The following disclosures meet the requirements of GASB 75 for the PERS and PFRS retirement systems.

Actuarial Assumptions

The total OPEB liability as of June 30, 2019, was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	2.50%
Salary Increases (PERS):	
Through 2026	2.00 – 6.00% Based on Age
Thereafter	3.00 – 7.00% Based on Age
Salary Increases (PFRS):	
All Future Years	3.25 – 15.25% Based on Age
Discount Rate	3.50%

Pre-retirement mortality rates were based on the (PERS): PUB-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using the Scale MP-2019 and (PFRS): PUB-2010 “Safety” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using the Scale MP-2019.

Post-retirement health mortality rates were based on (Chapter 330 Retirees): PUB-2010 “Safety” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using the Scale MP-2019. Other Retirees: PUB-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using the Scale MP-2019.

Actuarial Assumptions (Continued)

Disability mortality was based on the PUB-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using the Scale MP-2019 for PERS Future Disabled Retirees and Other Current Retirees. PFRS Future Disabled Retirees and Chapter 330 Current Retirees was based on PUB-2010 “Safety” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using the Scale MP-2019.

Certain actuarial assumptions used in the June 30, 2018, valuation were based on the results of the pension plans’ experience studies for which the members are eligible for coverage under this Plan – The Police and Firemen Retirement System (PFRS) and the Public Employees Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Bond index.

There were no changes in benefit terms during the year.

Differences Between Expected and Actual Experiences: The decrease in the liability from June 30, 2018 to June 30, 2019, is due to changes in the census, claims, and premiums experience.

Changes in Assumptions: The decrease in the liability from June 30, 2018 to June 30, 2019, is due to the combined effect of the decrease in the assumed discount rate from 3.87% as of June 30, 2018, to 3.50% as of June 30, 2019, and changes in the trend, excise tax, updated decrements, PPO/HMO future retiree elections, salary scale, and mortality assumptions.

OPEB Liability, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2019, the County would have reported a liability of \$169,581,503 for its proportionate share of the net OPEB liability if New Jersey municipalities followed GAAP accounting principles. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The County's proportion of the net OPEB liability was based on a projection of the County's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating members, actuarially determined. At December 31, 2019 and 2018, the County's proportion was 1.251887% and 1.347969%, respectively.

For the year ended December 31, 2019, the County would have recognized net OPEB expense of \$6,738,609 if New Jersey municipalities followed GAAP accounting principles. Special Funding Situation

A special funding situation exists for some local employers of the Police and Firefighters Retirement System who do not pay for health benefits coverage for their retired employees. Under Chapter 330, P.L. 1997, certain retired local police officers and firefighters are eligible for enrollment in the State Health Benefits Program with part of the cost paid by the State. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L. 1989. The State is treated as a nonemployer contributing entity. Since the local participating employer does not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report. At December 31, 2019 and 2018, the County's proportion was .499799% and .541948%, respectively. The County's proportionate share of the State's collective net OPEB liability at December 31, 2019 and 2018, was \$366,077 and \$1,019,406, respectively.

NOTE 13: DEFERRED COMPENSATION PLAN

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation is not available to the employees until termination, retirement, death, or unforeseeable emergency. The administrators of the plans are Lincoln Financial Group, Brighthouse Life Insurance Company, Mass Mutual, Valic, and MetLife.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights have been removed from the books and accounts of the County as they are no longer the property or rights of the County.

NOTE 14: CONTINGENCIES

The County participates in federal and state assisted grant programs. The County is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs.

Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

In the normal course of business, the County may be periodically named as a defendant in litigation. There are several actions that have been instituted against the County which are either in the discovery stage or whose financial outcome cannot be determined at this time. In the opinion of the County Administration, supported by legal counsel, the amount of ultimate liability with respect to these actions is unknown, but could be material.

NOTE 15: RISK MANAGEMENT

The County is exposed to various risks or loss related to torts, thefts of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The County of Gloucester and its departments, boards, agencies, and commissions presently purchase insurance or self-insures against risks of damage to persons or property of third parties, workers' compensation claims, and for dental coverage for employees through the Gloucester County Insurance Fund Commission ("The Commission") established on October 7, 2009, by resolution of the Board of Chosen Freeholders pursuant to NJSA 40A:10-6. The Commission is governed by three County officials who serve as commissioners and are appointed by the Board. Excess insurance is managed by the New Jersey Counties Excess Joint Insurance Fund.

The Gloucester County Insurance Fund Commissioners retain the services of an actuary to establish the amount of reserves deemed necessary to pay claims. The estimated liability is established by the third party administrator, for claims incurred and reported for the Self-Insurance Fund. The County of Gloucester's 2020 assessment for property and casualty insurance and workmen's compensation insurance was \$3,369,644.69.

The Bonds are issued in fully registered book-entry-only form without coupons. The Bonds are subject to redemption prior to their stated maturity dates on the terms and conditions stated therein.

The Bonds are being issued to provide funds which will be used to finance or pay the costs of: (i) certain general capital improvements and equipment for which obligations have been authorized, but not issued; (ii) certain capital improvements for Rowan College of South Jersey (“RCSJ”), for which obligations have been authorized, but not issued; (iii) certain capital improvements for the Gloucester County Institute of Technology (“GCIT”) and RCSJ as a part of the Building Our Future Bond Act Program, for which obligations have been authorized, but not issued; and (iv) certain costs and expenses related to the issuance and sale of such bonds.

As the basis for the opinions set forth below, we have examined such matters of law as we have deemed necessary including, *inter alia*, the Constitution of the State of New Jersey, the Internal Revenue Code of 1986, as amended (“Code”), and the Local Bond Law. We have also examined such documents, certifications and instruments as we have deemed necessary including, without limitation, the Bond Ordinances, the Resolution, the Award Certificate, the representation of certain officials of the County, GCIT and RCSJ having the responsibility for issuing the Bonds given pursuant to the Code as set forth in the Certificate as to Nonarbitrage and other Tax Matters (“Nonarbitrage Certificate”), and the other certifications, instruments, documents and opinions listed in the closing agenda prepared in connection with the settlement of the Bonds.

In rendering the following opinion, we have relied upon the authenticity, truthfulness and completeness of all documents, instruments, certifications and opinions examined including, without limiting the generality of the foregoing, the Nonarbitrage Certificate.

Based upon and subject to the foregoing, we are of the following opinion:

1. The Bonds are legal, valid and binding obligations of the County enforceable in accordance with the respective terms thereof, except to the extent that enforcement thereof may be limited by bankruptcy, insolvency, moratorium or other laws or equitable principles affecting the enforcement of creditors' rights generally ("Creditors' Rights Limitations").

2. For the payment of principal of and interest on the Bonds, the County has the power and is obligated, to the extent payment is not otherwise provided, to levy ad valorem taxes upon all taxable real property within the County without limitation as to rate or amount, except to the extent that enforcement thereof may be affected by Creditors' Rights Limitations.

3. Interest on the Bonds is not included for federal income tax purposes in the gross income of the owners thereof pursuant to Section 103 of the Code and will not constitute a tax preference item for purposes of the alternative minimum tax imposed on individuals.

Interest on tax-exempt obligations, including the Bonds, is not excludable in calculating certain corporation's "adjusted current earnings." Accordingly, a portion of the interest on the Bonds received or accrued by a corporation that owns the Bonds is included in computing such corporation's alternative minimum taxable income for such year.

Section 884 of the Code imposes on certain foreign corporations a branch profits tax equal to thirty percent (30%) of the "dividend equivalent amount" for the taxable year. Interest on the Bonds received or accrued by a foreign corporation subject to the branch profits tax will be included in computing the "dividend equivalent amount" of such corporation.

In addition, passive investment income, including interest on the Bonds, may be subject to federal income taxation under Section 1375 of the Code for any S corporation that has Subchapter C earnings and profits at the close of the taxable year if more than twenty-five percent (25%) of the gross receipts of such S corporation is passive investment income.

In rendering this opinion, we have assumed continuing compliance by the County, GCIT and RCSJ that they will comply with the applicable requirements of the Code, including requirements relating to, inter alia, the use and investment of proceeds of the Bonds and rebate to the United States Treasury of specified arbitrage earnings, if any, under Section 148(f) of the Code. Failure of the County, GCIT or RCSJ to comply with such covenants could result in the interest on the Bonds being subject to federal income tax from the date of issue. We have not undertaken to monitor compliance with such covenants or to advise any party as to changes in the law after the date hereof that may affect the tax-exempt status of the interest on the Bonds.

Ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers including, without limitation, certain holders of an interest in a financial asset securitization investment trust, property and casualty insurance companies, controlled foreign corporations, individual recipients of Social Security or Railroad Retirement benefits, individuals who otherwise qualify for the earned income credit, and to individuals and families that qualify for a premium assistance credit amount under Section 36B of the Code. The Code denies the earned income credit to an individual who is otherwise eligible if the aggregate amount of disqualified income of the taxpayer for the taxable year exceeds certain limits set forth in Sections 32(i) and (j) of the Code. Interest on the Bonds will constitute disqualified income for this purpose. The Code also provides that the earned income credit is phased out if the modified adjusted gross income of the taxpayer exceeds certain amounts. Interest on the Bonds is included in determining the modified adjusted gross income of the taxpayer. Section 36B of the Code provides that the amount of the premium assistance credit amount is in part determined by household income. Section 36B(d) of the Code provides that household income consists of the "modified adjusted gross income" of the taxpayer and certain other individuals. "Modified adjusted gross income" means adjusted gross income increased by certain amounts, including interest received or accrued by the taxpayer which is exempt from tax, such as the interest on the Bonds.

In addition, attention is called to the fact that Section 265(b)(1) of the Code eliminates the interest deduction otherwise allowable with respect to indebtedness deemed incurred by banks, thrift institutions and other financial institutions to purchase or to carry tax-exempt obligations acquired after August 7, 1986 other than "qualified tax-exempt obligations" as defined in Section 265(b)(3) of the Code. The County has not designated the Bonds as "qualified tax-exempt obligations" for purposes of Section 265(b)(3) of the Code.

Owners of the Bonds should consult their own tax advisers as to the applicability and effect on their federal income taxes of the alternative minimum tax, the branch profits tax and the tax on passive investment income of S corporations, as well as the applicability and effect of any other collateral federal income tax consequences.

4. Interest on the Bonds and any gain from the sale thereof is not included in the gross income of the owners thereof under the New Jersey Gross Income Tax Act, as enacted and construed on the date hereof.

We express no opinion as to any matter not set forth in the numbered paragraphs above including, without limitation, any financial or other information which has been or may be supplied to purchasers of the Bonds.

The opinions expressed in the numbered paragraphs above are being rendered on the basis of federal law and the laws of the State of New Jersey, as presently enacted and construed, and we assume no responsibility to advise any party as to any changes in law or fact subsequent to the date hereof.

This is only an opinion letter and not a warranty or guaranty of the matters discussed above.

This letter is being provided solely for the benefit of the County and may not be relied upon by any other person, party, firm or organization without our prior written consent.

Very truly yours,

(b) The Dissemination Agent, promptly (within fifteen (15) Business Days) after receiving the Annual Report from the County, shall submit the Annual Report received by it to the National Repository and thereafter shall file a written report with the County certifying that the Annual Report has been provided pursuant to this Agreement, stating the date it was provided to the National Repository.

(c) If the County fails to provide the Annual Report to the Dissemination Agent by the dates required in subsection (a) of this Section 3, the Dissemination Agent shall send a notice to the County advising of such failure. SECTION 6. Termination of Disclosure Agreement. This Disclosure Agreement shall terminate upon the defeasance, prior redemption or payment in full of all of the Bonds or when the County is no longer an Obligated Person (as defined in the Rule) with respect to the Bonds.

SECTION 7. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Agreement, the County and the Dissemination Agent may amend this Disclosure Agreement and any provision of this Disclosure Agreement may be waived, if such amendment or waiver (supported by an Opinion of Counsel) is: (a) made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the County, or type of business conducted; (b) the undertaking, as amended or waived, would have complied with the requirements of the Rule at the time of the primary offering of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and (c) the amendment or waiver does not materially impair the interests of Bondholders. The County shall give notice of such amendment or waiver to this Disclosure Agreement to the Dissemination Agent and the Dissemination Agent shall file such notice with the National Repository.

SECTION 8. Additional Information. Nothing in this Disclosure Agreement shall be deemed to prevent the County from disseminating any other information, using the means of dissemination set forth in this Disclosure Agreement or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Agreement. If the County chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Agreement, it shall not have any obligation under this Disclosure Agreement to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

The sole remedy under this Disclosure Agreement in the event of any failure of the County to comply with this Disclosure Agreement shall be an action to compel performance. A failure of the County to comply with any provision of this Disclosure Agreement shall not be deemed to be a default under the Bonds.
